REPORT TO MAYOR TELLS OF 2 SITES FOR FLYING FIELD

One Possible Situation for Airport Is on East Side, Other on Land to Be Reclaimed From River.

QUICK ACTION URGED BY COMMITTEEMEN

Enlargement of Lambert-St. Louis Field Advised by Purchase of Adjoining Land by City.

Two sites for the proposed downtown airport, one of them on the east side of the river, were recommended by the technical committee of the Municipal Airport Plan and Scope Commission in its report to Mayor Miller today. The recommendations are based on a survey by E. Russell Shaw.

The St. Louis situation proposed on land to be reclaimed from the Mississippi River north of Bismarck Point, extending to the south side of the Chain of Rocks Waterworks plant. This newly created area, it is stated, would be larger than Forest Park, and would give St. Louis the finest airport in the world, besides park, industrial and residential land.

Group Wants Quick Action.

The committee, headed by Albert Shaw, Lambert, urges that the city and commercial interests of St. Louis join those of East St. Louis in building a landing field on the proposed East Side site; that a committee be put to work on the reclamation plan north of Bismarck Point; and that the city acquire the land on the south side of the Chain of Rocks Waterworks plant, and that the city acquire the land on the north side of the Chain of Rocks Waterworks plant, and that the city acquire the land on the north side of the Chain of Rocks Waterworks plant.

PROMOTER DENIES EAST SIDE REALTY SWINDLE CHARGES

C. J. Gonterman, Under 31 Indictments, on Stand in Belleville in Confidence Game Trial.

12 FORMER CLIENTS
TESTIFY FOR STATE

They Lent Their Credit for Him to Buy Lots—Total Losses Are Estimated at \$800,000

Affable, calm, and untroubled by the testimony of 12 State's witnesses who yesterday involved him in wholesale real estate swindles, Courtney J. Gonterman, high-powered salesman and realty promoter, today resumed the witness stand in Circuit Court at Belleville in his trial on a charge of operating a confidence game.

While Gonterman sat impassive beside his counsel yesterday, the prosecution laid before the jury the details of his activities in the promotion of Bellemeor Park on the edge of Granite City, and the Mid-Continent Finance Corporation, two enterprises in which investors are said to have lost a total of \$800,000.

Under 31 indictments, Gonterman, a pleasantly stout man of 35 who lives at the Forest Park Hotel in St. Louis, is under 19 indictments in Monroe County and 12 in St. Clair County as a result of his activities. In this trial he is specifically charged with taking \$127.50 from Fred Breitach, a Millstadt carpenter, by a confidence game.

Gonterman's erstwhile clients testified that the scene for the separation of themselves and their money was laid when Gonterman persuaded them to buy lots at \$750 each in Bellemeor Park. Instead of putting up cash they put up personal notes for the amount with the promise that they were to get a profit of \$127.50 in six months, or as an alternative, a deed to such lots as they had bought.

It looked like a sure-fire good thing. All the purchaser pledged was his credit. He put up no money and yet he got back either \$127.50 or a deed on a pretty good lot. To top it off, the investors got back their \$127.50 on their first investment in real money.

Breitach Tells His Story. Breitach, whose experience was typical, testified that he wanted to reinvest his profits but that Gonterman told him he would have to invest first in the Mid-Continent Finance Corporation, a new concern fostered by the promoter.

"He said we were losing too much money by discounting the notes to other finance concerns," Breitach said. "Of course, it looked like we were due to make a lot of money. I invested just like the others did. Then I put up notes, thinking I was to be paid for the use of my credit, just as I was the first time."

"Presently finance companies and banks to which my notes had been sold began to sue me. I didn't get back any money from Gonterman. Judgments began to pile up against me and I now stand to lose about \$8000 on the notes I gave."

Gonterman's attitude is that while it was unfortunate that money was lost in his enterprises, it was chargeable to circumstances and not to any fault of his. "They really didn't buy the lots," he testified. "They merely lent me \$750 in notes on them. We told them specifically that we would sell the notes, use the money to improve the lots, and the lots at a profit and reimburse them for their loan. In taking \$127.50 they were guilty of charging an illegal rate of interest and to avoid any trouble we therefore called the transaction a sale, and we gave each of them a contract which said they would get a deed within six months if they did not get \$127.50."

Gonterman referred to the investors as "co-operators" and always said "we" in outlining his activities. Today he was cross-examined, particularly on charges made yesterday by former clients that during 1925 some of the lots were sold to several persons, or that, to follow Gonterman's explanation, several persons lent \$750 in notes on the same lot.

MAC INTOSH HOPS OFF ON ATLANTIC FLIGHT TO U. S.

Continued From Page One.

MacIntosh returned to the air-drome about half an hour after the flight started. The pilot said the Princess Xena was making about 110 miles an hour.

As he came on the flying field, MacIntosh saw a black cat, which he picked up and said, "This is certainly an omen of good luck," he remarked.

"With good luck we shall do it," he added.

Two fast planes of the Free State air force escorted the Princess Xena to the coast.

Known as "Pilot of the Night," MacIntosh is known as "The Pilot of the Night" because he claims the record for the greatest number of hours of night flying.

With 13 years of experience, he has the reputation of being one of the best pilots in the world. He played a considerable part in the development of aviation by trying out many new machines, both commercial and military. He was a pilot on the Western front throughout the war and had many narrow escapes, but came through unharmful. He attained the rank of captain before resigning from the Royal Air Force in 1919 and has since been a pilot for the Imperial Airways.

He is 32 years old and unmarried. Pitman saw service in the war in the British infantry, cavalry and air force. He joined the Leinster regiment in 1914 when only 15 years old and was sent home. Three months later he re-joined and went to France with the seventeenth Lancers. In May, 1918, he was wounded and transferred to the infantry. He fought at Arras and in the Somme sections with the West Surreys. Later he received a commission in the Liverpool Irish regiment. He was transferred to the Air Force in 1919.

He made his first night flight from Folkestone to Cologne in 1919. The next year he was picked as pilot of a projected Cairo-Capetown flight which was abandoned. He joined the Free State Air Force in 1922.

Backed by William B. Leeds, William B. Leeds is MacIntosh's chief financial backer, but the pilot said to have also put all his own resources into the enterprise. More funds were needed, however, and he spent some time looking for a paying passenger to share the expense.

MacIntosh announced that he would head for New York, and continue on to Philadelphia to claim a \$25,000 prize offered by the Evening Bulletin. The newspaper, however, has withdrawn the prize in view of recent long distance flight disasters and MacIntosh has not announced any change of destination since the withdrawal.

MacIntosh prepared for the flight for more than two months. The plane was flown from the Fokker works in Holland to Bristol in the middle of July and adjustments to the rudder made there before the air ministry would issue a certificate of airworthiness. The Princess Xena flew on to Baldon Sept. 4 and has since been awaiting favorable weather.

"I am not going to throw away my life on anything which I do not think is feasible," MacIntosh said recently. "We are just out to do a job of aerial development and expansion."

"We have been at sea four and a half years and done 18 months over the Atlantic and know the kind of weather we are likely to meet there. This will help tremendously."

Unidentified Plane Reported Seen Passing Over the Azores.

HORTA, Azores, Sept. 16.—An unidentified airplane was reported to have passed over the Western side of Faya's this morning at 2:30 o'clock, local time, flying low from west to east, apparently in good condition. The weather was fine and the sea calm.

LONDON, Sept. 16.—Considerable mystery is attached here to the identity of the plane reported sighted over the Azores this morning since there has been no news here of any trans-Atlantic or other overwater flying. The fact that the machine was flying from west

JARDINE DIRECTS DISCONTINUING OF PRICE FORECASTS

struggled to execute orders. In New Orleans the staple dropped \$3 a bale upon the first news flash, and then an additional \$3 when speculators were convinced a Government bureau actually had issued such a statement.

Samuel T. Hubbard, president of the New York Cotton Exchange, telegraphed to Secretary Jardine asking if his department had authorized the forecasts.

Kenneth C. Hogate, managing editor of the Wall Street Journal, said the article containing the price forecast was mailed to the Washington office of his paper, that later in the day additional copies were obtained from the Department of Agriculture, that there was no question of the official nature of the statement, and that it was plainly marked for release.

Protest of Producers From South Following Cotton Price Prediction.

NEW ORLEANS, La., Sept. 16.—Protest against prediction in a Government report that cotton prices would likely decline within the next few months, were wired to congressional delegations, Department of Agriculture officials and President Coolidge yesterday by the New Orleans Cotton Exchange, the Savannah, (Ga.) Cotton Exchange, Gov. Dan Moody of Louisiana, and Representative John E. Rankin of Mississippi.

The protest from the New Orleans Exchange said in part: "It is most unusual for the Department of Agriculture to attempt to forecast the trend of the price of cotton or any other commodity. Such a policy is likely to result detrimentally either to the producer or to the consumer."

The Savannah, (Ga.) Exchange adopted a resolution protesting against the Government report. This resolution told of the Government's surprise that the Government should step out of its sphere, and condemn such an unusual course being resorted to by the Government bureau.

Rankin, in a telegram addressed to Secretary Jardine, said: "Your department has again betrayed the cotton farmers of the South and West by giving out a statement predicting a decline in the price of cotton if present crop prospects are realized."

"The sole purpose of this statement was to depress the price of cotton for the benefit of New England spinners and it was not based on any knowledge of the conditions of the cotton crop at this time."

Governor Charges U. S. Forecast Cost Texas Owners \$118,000,000.

AUSTIN, Tex., Sept. 16.—Gov. Dan Moody last night sent a telegram to President Coolidge and Secretary Jardine protesting against the release yesterday of a statement predicting mill activity and a consequent decline in cotton prices.

Moody declared the cotton market broke 160 points after publication of the report which "means a decrease of nearly \$18,000,000 in the value of the unsold portion of the Texas crop and a decrease of nearly \$100,000,000 in the value of the unsold Southern crop."

"The benefit of this depression," he added, "largely inures to the European spinners and weavers and they prosper at the expense of the Texas producers. It is hoped that the report is in error."

Conditions "Fair" for MacIntosh, Says New York Weather Man.

NEW YORK, Sept. 16.—Dr. James H. Kimball, meteorologist of the local weather bureau, said today that from meager reports of North Atlantic weather, he believed conditions were "fair" for MacIntosh's flight. Based on his conclusions on conditions from St. John eastward to mid-ocean on yesterday's late reports, however, he said the south to southwest winds probably would prevail on the surface with southwest winds aloft. Mostly overcast weather would cover his stretch of Atlantic, he said, with occasional showers and probably fog.

OUSTER OF DOCTOR LAID TO A KINDLY VIOLATION OF RULE

Dr. Barker at Veterans' Hospital Permitted Unauthorized Fund for Patients' Comforts.

All disclosures so far—and few are forthcoming—indicate that Dr. Howard H. Barker was asked to resign as head of the Veterans' Hospital at Jefferson Barracks, because he was too good to the patients.

The doctor's friends here and in Washington plan, on the return of Director Hines of the Veterans Bureau from Europe, to ask him to reconsider his action. They consider it a punishment disproportionate to a technical misstep for the benefit of the patients.

No explanation was made last month when Dr. Barker, who was in the Bureau's Washington office, on Dr. Barker's departure on his annual leave, assumed charge of the hospital, with J. R. Talferro, formerly of the Veterans' Hospital in Dwight, Ill., as business manager.

Dr. Barker and the former business manager, J. H. Halloran, have resigned. The case of another doctor at the hospital is said to be still under consideration, and a woman employee has been reduced in rank and pay.

No statement could be obtained from Dr. Barker, who was in St. Louis yesterday when word was received from Washington that his resignation had been accepted. Others said his attitude throughout has been one of loyalty to the Bureau and reluctance to accuse it of unfairness, even in his own case.

At the Washington office it was suggested that Dr. Barker wished to engage in some work outside of Government service. Actually, the basis for the sudden changes in personnel, it was said, was the maintenance of a fund for little luxuries for the patients. It was pointed out that about \$450 was turned over to Dr. Barker when he took charge, and he merely allowed a practice begun by his predecessors to continue.

Many visitors would leave soda bottles about the grounds. These were gathered up and sold, with other junk sorted out by the patients. When the grounds were mowed, the hay was sold, as were the pigs of two Government sows at the hospital. All this went into the fund.

Veterans thus were able to have a special dish or a little entertainment on Christmas, Easter and other holidays. Account was kept of every nickel. Once, it is said, \$25 from the fund paid for a blood transfusion after the Government had refused to authorize the expenditure.

Technically, the hay and the pigs belonged to the Government. For that reason Dr. Barker, with no known complaint against his administration of the hospital, is out of a job.

"The sole purpose of this statement was to depress the price of cotton for the benefit of New England spinners and it was not based on any knowledge of the conditions of the cotton crop at this time."

BROTHERS' BODIES TO BE EXHUMED IN POISON INQUIRY

Order Follows Finding of Drug in Stomach of Wife of One Whose Parents Are Under Arrest.

By the Associated Press. BLAKELY, Ga., Sept. 16.—Exhumation of the bodies of Amos Hayes of Detroit and his brother, James, has been ordered by the Sheriff's office in its investigation of the poisoning of Amos Hayes' 16-year-old wife.

The parents of the two men, Mr. and Mrs. Harris Hayes, are held in jail here on charges of murder in connection with the mysterious death of their daughter-in-law, which followed those of their sons by only a few days.

A chemist's report to the Coroner's jury that two kinds of poison were found in Mrs. Amos Hayes' stomach led the Sheriff to order an examination of the bodies of the two men to determine the cause of their deaths, attributed originally to natural causes.

Deputy Sheriff Sid Howell said the bodies probably would be exhumed Saturday. Meanwhile Harris Hayes and his wife continued their efforts to obtain release on bond, refused so far because of the crime of which they have been accused and a billable offense.

It was announced, however, that their counsel would petition Superior Court Judge M. J. Teomans at Dawson to set a bail.

PAIR ROBBED OF \$16,180. Theatrical Producer and Wife Held Up in Chicago Apartment.

By the Associated Press. CHICAGO, Sept. 16.—Ernie Young, theatrical producer, and Mrs. Young were held up in their hotel apartment last night by two men and robbed of \$16,180 in jewelry and cash.

The robbers, armed, walked into the apartment as Mr. and Mrs. Young were dining. They compelled Mrs. Young to show them which she kept her jewelry, after which they tied the hands of their victims with silk stockings. Cutting the telephone wires the robbers escaped before Mr. or Mrs. Young could free themselves.

GENERAL MOTORS STOCK RISES. Both Old and New Issues Reach High Levels on Exchange.

By the Associated Press. NEW YORK, Sept. 16.—A tremendous volume of buying of both old and new stocks of General Motors Corporation on the New York Stock Exchange today carried each to high levels.

The old stock soared 7 points from its final quotation yesterday to 27 3/4 in late dealings, while the new issues moved up 4 1/2 to 137. Transactions in both issues exceeded \$40,000 shares.

GOLDSTEIN PAROLE RECOMMENDED BY BOARD FOR OCT. 9

St. Louisian Received at Leavenworth Jan. 5, 1926, Under Two-Year Sentence for Whisky Plot.

By the Associated Press. LEAVENWORTH, Kan., Sept. 16.—Parole of Nat Goldstein of St. Louis, sentenced to serve two years in the Federal penitentiary in connection with the Jack Daniels whisky conspiracy in St. Louis, has been recommended by the Federal Parole Board, it was announced today by Warden Thomas B. White.

Goldstein, convicted as one of the chief conspirators in connection with which 16 men, most of them St. Louisians, were sentenced to the penitentiary, was received at the prison Jan. 5, 1926, and became eligible for parole Oct. 9, on which date he will be released.

HIS PAROLE EXPECTED

NAT GOLDSTEIN.

of Internal Revenue, so the warehouse could be "milked" without interference from Federal officials. Hellmich was convicted and sentenced to two years. He did not ask for bond after conviction and was paroled after serving a third of his sentence.

William J. Kinney, deputy of Hellmich, and brother of State Senator Michael Kinney, also was convicted and paroled after serving a third of his sentence.

Goldstein and others, including Michael J. Whalen, former member of the St. Louis Democratic City Committee; Morris Mullin, whisky dealer; Harry (Fat) Levine, Deputy Constable, and O'Neal, appealed to the Supreme Court of the United States for bond, which was granted by Justice Pierce Butler. They had entered prison Jan. 5 and were released under bond Feb. 17. Upon appeal from the Indianapolis conviction they re-entered prison more than a year later, April 7 last.

Since that time Goldstein has had to make the most of his situation and in prison was placed on a hospital diet and given light work, sweeping the yard. The hospital was prescribed by Federal Judge Baltzell of Indianapolis, to whom Goldstein, before re-entering prison, appealed for a stay of judgment on the ground that arteriosclerosis and heart disease, from which physicians said he was suffering in a mild way, would be seriously aggravated by imprisonment.

Prison Not Unpleasant. But imprisonment did not endanger Goldstein's health, for he has recently told friends from St. Louis who visited him that the hospital treatment and diet at the prison, together with a much-needed rest that he found there, have helped him.

"I am in much better health," Goldstein said.

George Remus, chief promoter of the conspiracy, turned Government witness and testified that Goldstein introduced him to Jack Kratz of St. Louis, now dead, who in turn "fixed things" with Arnold Hellmich, then St. Louis Collector.

\$3000 LOSS IN OLD SWINDLE REPORTED BY OWNER

Two Men Induced Him to Buy Savings in Tin Box, Anderson Nelson Tells Police.

The ancient "tin box" swindle today found a victim in Anderson Nelson, proprietor of a soft drink bar at 1500 South Tenth street. Nelson reported to the police the scheme had been the means of separating him from \$3000, his savings.

He said he deposited the money in a tin box along with \$1000 up by an acquaintance of a few days' standing and a person met by stranger who had told him he had \$25,000 to be given to St. Louis man. Nelson was persuaded to put up his money for the privilege of handling the \$1000 supposed to be in the tin box. When he got home with the tin box, however, he found that his \$1000 and his acquaintance's \$2000 were gone and that the wallet actually had only three \$1 bills and a bundle of newspaper clippings.

SATURDAY—THE FINAL DAY OF THE ANNIVERSARY SALE—FEATURES MANY ITEMS NOT ADVERTISED

NURSE ARRAIGNED

AS POISONER OF GIRL

Mary Atkinson at Enid, Ok., Enters Plea of Not Guilty.

ENID, Ok., Sept. 15.—Miss Mary Atkinson, 26-year-old nurse, pleaded not guilty to a charge of murder in connection with the death of Mary Jane Bailey, daughter of the Rev. Charles Bailey when arraigned yesterday. The nurse waived the right of employing counsel with the formal plea "I am not guilty."

Asked by Justice David Fogleman if she did not wish to take advantage of the 24-hours allowed in which to enter her plea through counsel, she repeated her plea and with a smile, added, "It wouldn't make a lot of difference."

She was immediately returned to her cell where she has been held during a pathological examination revealing poison in the viscera of Mary Jane who died a week ago, shortly after the death of Mary Jane's mother and the illness of four other Bailey children. No word was received from a brother who visited her shortly after she was arrested.

Miss Atkinson apparently made no effort to communicate with the grey haired Episcopal minister for whom she had expressed a deep devotion and in whose home she lived prior to the death of Mrs. Bailey.

Dan Mitchell, County Attorney, refused to state whether he would exhumate the body of the pastor's wife who died of an illness described as similar to that of her daughter.

Although Mitchell has several letters from the pastor to the nurse, which the minister described as "letters of sympathy," as well as a quantity of poison found in Miss Atkinson's room, he said he expected to base his case on three hypodermic syringes also discovered in possession of the defendant. Mitchell said the syringes were similar to one found at the hospital where Mary Jane died and which chemists reported contained poison.

Mitchell declined to name the poison revealed by the viscera test, but said it was not the same as found in Miss Atkinson's room. He said the syringes were of a different type than those used at the hospital.

Authorities also took statements from physicians who said that Mary Jane, her mother and the four children who recovered, showed symptoms of ptomaine poisoning.

Miss Atkinson's preliminary hearing was set for Sept. 28.

DEVICE TO START FIRE DISCOVERED IN CLOSED STORE

Fumes of Chemical Kill Dog
—Owner Gone, Brother
Tells of Threat to "End
Business."

"Store closed today—Art is sick," read a sign on a grocery at 1826 Pendleton avenue. A Negro boy, who peered in the store at noon yesterday saw nothing of Art Goldstein, the 19-year-old proprietor, but saw a dog and two chickens dead on the floor and two more chickens dying.

Police and firemen were summoned and broke in the locked door. The grocery was filled with fumes and what police reported to be an arson device had been arranged on a counter.

An alarm clock was set to sound off at 1 p. m. A string, attached to the hammer of the alarm, extended to a nearby glass containing a chemical solution, in such a way that the glass would overturn when the hammer moved, according to police.

Falling to find Art Goldstein, police questioned his brother and backer, Samuel Goldstein, 4319 Page boulevard, and reported he told this story:

Art Goldstein on Wednesday complained trade was poor, and he was going to put the store "out of business." Fearing the store was to be burned, Samuel went to it early yesterday and found a pile of carbide on the floor, where it might be ignited when the alarm clock spilled the chemical in the glass. Some substance had been sprinkled over the stock and furnishings, and fumes were in the air. Samuel removed the carbide to prevent a fire; then went home, leaving the store deserted except for the dead dog and chickens.

Ends 9200-Mile Chase After Flies.
By the Associated Press.
WASHINGTON, Sept. 16.—An automobile journey through Western states for 9200 miles to chase flies was the task of Dr. J. M. Aldrich, entomologist of the Smithsonian Institution, who has just returned here with several thousand specimens of unidentified species of winged insects. Dr. Aldrich concentrated mainly on the study of insects which are considered enemies of men, including the mosquito, house fly and tsetse fly.

DYNAMITE WRECKS OFFICE BUILDING AT MONSANTO, ILL.

Explosion Follows Controversy Over Non-Union Negro Laborers Hired by Contractors.

A dynamite explosion last night wrecked an office building of the Lewin Metal Corporation of St. Louis, under construction in the village of Monsanto, two miles south of East St. Louis.

It was learned today that union workmen on the building had complained about the employment of 10 Negroes as common laborers. The Negroes belonged to no union. The union craftsmen had been employed by contractors while the laborers were hired directly by the company, it was said.

A watchman, William Steele, was in his shanty when the explosion occurred, at 8:10 o'clock, but saw no one. The office building is near State Highway No. 3.

The explosion ruined the interior and damaged the walls and roof of the brick and terra cotta cottage style office structure. Damage was estimated at about \$6000. The company's nearby foundry was not damaged.

In the last three months, two buildings have been dynamited in East St. Louis and an attempt made to pull down the walls of a third building.

WOMAN WHO PRAYED DURING DRY RAID PAYS \$400 FINE

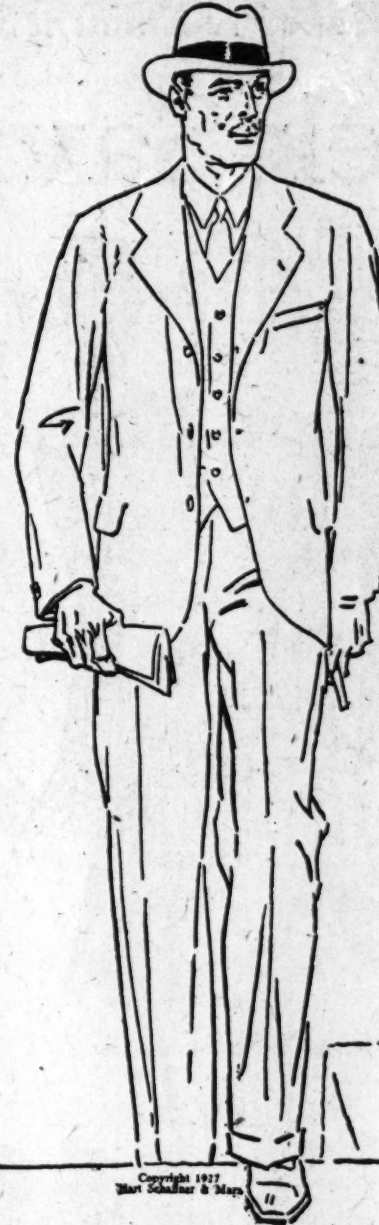

Mrs. Mary E. Johnson Pleads Guilty of Possessing Still, Mash and Alcohol.

Mrs. Mary E. Johnson, who fell on her knees and prayed for prohibition agents and herself when they raided her home on Woodlawn and Manchester roads, Aug. 29, today pleaded guilty of possessing a 15-gallon still, 75 gallons of mash and two gallons of alcohol. Federal Judge Davis fined her \$400, which she paid. She is 67 years old.

WOLFF'S

Washington Avenue at Broadway

ESTABLISHED SINCE 1891

ROYAL S. COPELAND, M.D.

Dr. Royal S. Copeland, at present United States Senator from New York and formerly Health Commissioner for the City of New York, is a national authority on public health and the record he achieved in New York at the head of the Health Department has never been equaled. It is natural that his opinion should have decisive weight.

Dr. Copeland says: "Mineral waters of the right sort are preferable to many of the cathartic compounds on the market. Their power to overcome the immediate effects of constipation is unquestioned. In their effects upon the bowel and its lining membranes, I am confident they are far less irritating. Indeed, many mineral waters possess qualities which make them soothing and healing to the tissues. Sugar coated pills are pleasant to take—that is the reason they are coated with sugar. But the fact that they are so attractive may add to their danger. They are no less habit-forming and drastic simply because they appeal to the taste. On the other hand, mineral waters contain elements which are found in the blood. Most of these substances are there in higher percentage than in the blood. For that reason they are unattractive to the blood-stream and therefore pass through the system, doing nothing else but to flush and cleanse the intestinal tract."

Pluto Water, with its mineral content, has been the dependable agent of the American people over the years in successfully battling constipation, the source of so many bodily ills. It "flushes the bowels and washes away impurities", gently, naturally and thoroughly. It neither gripes nor is habit-forming. Acts in 30 minutes to 2 hours.

PHYSICIAN SLAIN WHEN RIDING IN AUTO WITH WIFE

Retired Doctor of Vineland, N. J., Shot on Lonely Road by Two Negroes, She Declares.

By the Associated Press.
HAMMONTON, N. J., Sept. 16.—Mrs. Margaret Lillendahl, 41 years old, wife of Dr. A. William Lillendahl, who was murdered in this automobile yesterday, has been asked to remain at State police headquarters to assist the authorities in their investigation of the killing of her husband, who was 65 years old.

After hours of questioning last night, the police said Mrs. Lillendahl was too distraught to give a clear account of the killing, and they wish to question her further.

Dr. Lillendahl, who was a retired physician of New York, living on the outskirts of Vineland, near here, was shot on a lonely road in the woods. Mrs. Lillendahl said two Negroes darted from the woods, jumped on the running board of the car and attacked them.

It was at first believed that robbery was the motive, but the police could not find that anything was stolen.

Hailed Truck Driver.
Mrs. Lillendahl came out of the woods just as a small truck was passing. She appeared hysterical, and her clothes were torn. The driver of the truck brought her here, where she was treated at a hospital and later escorted to State police barracks to give an account of the murder.

In the meantime, scores of farmers and all available police were summoned to search for the two Negroes who Mrs. Lillendahl said attacked them.

At the scene of the killing in the woods bordering the lonely Asion road, four miles north of Hammonton, police found a blood-stained ring set with a ruby. Earlier they had found Mrs. Lillendahl's pocketbook containing \$20 and her wrist watch.

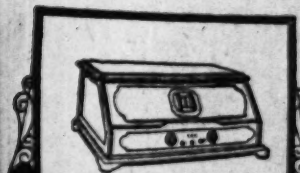

Whoever killed the physician, State police said they believed, fired from the right. The doctor's body was found slumped diagonally behind the driver's seat on the left side of the car. The head dropped over the door. The wound inflicted, with a 22 or 32 caliber pistol, was in the right side of the neck, the bullet traversing an upward course and lodging in the brain.

Woman Says She Was Driving.
Mrs. Lillendahl told the police she was driving the car when attacked. Neighbors said that in the frequent motor rides of the couple the husband never took the wheel. Mrs. Lillendahl always driving. Mrs. Lillendahl, a tall slender woman with chestnut hair and dark eyes, was described as the daughter of a well-to-do Baltimore family, who lived in New York some years before her marriage.

LEGALITY OF \$10,000,000 BOND ISSUE OF COKE CO. ATTACKED

Minority stockholders of the St. Louis Coke & Iron Co. yesterday filed formal notice at Edwardsville of a suit affecting the legality of a \$10,000,000 bond issue of the St. Louis Gas & Coke Co. The notice serves as a warning to prospective purchasers of the bonds, which now are being advertised for sale.

The suit mentioned in the notice was instituted Wednesday in Federal Court at Springfield to prevent what they assert is an effort of the Utilities Power & Light Corporation, which last June acquired control of the coke and iron company, to pay them less for their stock than its actual worth. The St. Louis Gas & Coke Co. was organized recently as successor to the St. Louis Coke & Iron Co.

By the Associated Press.
HAMMONTON, N. J., Sept. 16.—Mrs. Margaret Lillendahl, 41 years old, wife of Dr. A. William Lillendahl, who was murdered in the automobile yesterday, has been asked to remain at State police headquarters to assist the authorities in their investigation of the killing of her husband, who was 65 years old.

After hours of questioning last night, the police said Mrs. Lillendahl was too distraught to give a clear account of the killing, and they wish to question her further.

Dr. Lillendahl, who was a retired physician of New York, living on the outskirts of Vineland, near here, was shot on a lonely road in the woods. Mrs. Lillendahl said two Negroes darted from the woods, jumped on the running board of the car and attacked the driver.

It was at first believed that robbery was the motive, but the police could not find that anything was stolen.

Hailed Truck Driver.
Mrs. Lillendahl came out of the woods just as a small truck was passing. She appeared hysterical, and her clothes were torn. The driver of the truck brought her here, where she was treated at a hospital and later escorted to State police barracks to give an account of the murder.

In the meantime, scores of farmers and all available police were summoned to search for the two Negroes who Mrs. Lillendahl said attacked them.

At the scene of the killing in the woods bordering the lonely Atsion road, four miles north of Hammonton, police found a blood-stained ring set with a ruby, which they had found. Mrs. Lillendahl's pocketbook containing \$10 and her wrist watch.

Whoever killed the physician, State police said they believed, fired from the right. The doctor's body was found slumped diagonally behind the driver's seat on the left side of the car. The head dropped over the door. The wound inflicted, with a 22 or 32 caliber pistol, was in the right side of the neck, the bullet traversing an upward course and lodging in the brain.

Woman Says She Was Driving.
Mrs. Lillendahl said the police she was driving the car when attacked. Neighbors said that in the frequent motor rides of the couple the husband never took the wheel. Mrs. Lillendahl always driving.

Mrs. Lillendahl, a tall slender woman, with chestnut hair and dark eyes, was described as the daughter of a well-to-do Baltimore family, who lived in New York some years before her marriage.

LEGALITY OF \$10,000,000 BOND
ISSUE OF COKE CO. ATTACKED

Minority stockholders of the St. Louis Coke & Iron Co. yesterday filed formal notice at Edwardsville of a suit affecting the legality of a \$10,000,000 bond issue of the St. Louis Gas & Coke Co. The notice serves as a warning to prospective purchasers of the bonds, which now are being advertised for sale.

The suit mentioned in the notice was instituted Wednesday in Federal Court at Springfield by the minority stockholders to prevent what they assert is an effort of the Utilities Power & Light Corporation, which last June acquired control of the coke and iron company, to pay them less for their stock than its actual worth. The St. Louis Gas & Coke Co. was organized recently as successor to the St. Louis Coke & Iron Co.

Mortgage Holders Declare
Hotel and Annex Are Losing
Money Under Receiver.

Alleging the Buckingham Hotel and Annex are losing approximately \$2400 a month, even under the management of Receiver Isaac T. Cook, who has reduced operating expenses \$800 a month, two mortgage holders yesterday petitioned Federal Judge Farris to authorize foreclosure.

The application for a public sale of the hotel buildings is to have a hearing tomorrow morning at which counsel for the applicants, the Mortgage Loan Co. and the American Investment Co., will urge their reasons for wanting to put the property on the auction block. The former holds a deed of trust for \$75,000 and the latter another for \$44,000.

In their application they allege that, although Cook has been in charge for two months and has reduced expenses substantially, the properties are still losing money and debts against them now aggregate \$853,134. Of this amount \$840,000 is in deeds of trust.

The hotel properties were purchased in August, 1925, for \$1,000,000 by a syndicate headed by Louis Balsan, of 7054 Washington boulevard. The sale was handled by a woman realty operator, Miss Blanche Hittman, whose commission was \$40,000.

Druggists End Convention Today. Federated Wholesale Druggists held their twelfth annual banquet last night at Hotel Missouri as a part of their annual convention program. After election of officers the convention will end its one-week program today. This organization is composed of 37 wholesale drug concerns in the United States and Canada.

ECZEMA ON
FACE IN RASH

Spread to Neck. Could Not Sleep. Cuticura Heals.

"My trouble began with blackheads. I picked at them, trying to remove them, but instead they got worse and my skin became irritated, itching and burning all the time. Then eczema broke out on my face in a rash and spread to my neck. It troubled me so that I could not sleep at night and the irritation caused me to scratch."

"I began using Cuticura Soap and Ointment and after using four cakes of Cuticura Soap and six boxes of Cuticura Ointment I was completely healed." (Signed) Mrs. Ruby Eames, Box 212, Fredericktown, Mo., Feb. 23, 1927.

Rely on Cuticura Soap and Ointment to keep your skin clear. Soap 10¢, Ointment 25¢ and 50¢. Sold everywhere. Sample with this ad. Cuticura Laboratories, Dept. N. W. Allen, Mass.

Great Features of This Astounding Offer!

1. Scientific Shielding---
Of a quality formerly only possible in the highest-priced sets.
2. The Genuine Neutrodyne Principle---
Prevents oscillation. Of course, it is more expensive than ordinary methods, but it is a feature of this marvel radio.
3. Long-Distance Acuminators---
As telescopes bring objects clearly into view so the Crosley acuminators produce the volume of far-away signals so they seem like local programs.
4. Volume Control Minus Distortion---
Whether you want "brass band" power for dancing or soft and mellow reproduction, the Crosley sets a high standard of controlled tone quality.
5. Illuminated Dial---
No need to break "the mood of music" with a sudden glare of light for tuning, because the Crosley illuminated dial may be plainly read in the dark.
6. The Single Knob
Simplifies tuning for ordinary reception of local and super-powered stations.
7. Beauty of Cabinet
Best of equipment. An inspection of the beautiful cabinet makes this price seem impossible; such rich woodwork, the full-tone, enclosed cone speaker, and the spacious compartment for batteries and power units—check off every item of equipment. At such savings you might expect second-rate accessories—but not in this offer. The list reads like a Radio Hall of Fame!

4 OF 12 GIRLS TAKEN ILL AFTER BIRTHDAY PARTY

Potomaine Poisoning Blamed
for Attack — City Bacteriologist to Analyze
Samples of Food Served.

Mary Randazzo was 17 years old yesterday and her fellow workers at the Knickerbocker Clothing Co., 1316 Washington avenue, surprised her with a birthday party during the noon lunch hour.

From three restaurants in the neighborhood, they bought large quantities of ice cream, cakes and soda water to supplement sandwiches brought from home and all sat down to the feast, after which they returned to work.

Miss Randazzo, who lives at 717 Wash street, collapsed at her work and was taken to City Hospital. Three others also became ill and were removed to the hospital. They were Anna Palmisano, 17, of 1126 North Ninth street; Mary La-Macchia, 18, of 1602 North Ninth street, and Grace Mercurio, 18, of 1019 North High street. Miss Mercurio later went home; the condition of the others remains serious.

Physicians diagnosed the illness as potomaine poisoning. Eight other girls who participated in the birthday party luncheon were not affected. Samples of the food have been turned over to the City Bacteriologist for analysis.

Tunney Appears Bigger And Faster Than Last Year, Wray Declares

Champion Is Developing Overhand Punch, Sports Editor Writes After Seeing Titleholder in Action—Doubts He Will Try to Knock Out Dempsey.

By John E. Wray,
Sports Editor of the Post-Dispatch.

CHICAGO, Sept. 16.—Gene Tunney, master of all the pugilistic world at present, is apparently not aware that he is within one week of his thirtieth birthday and that this asset means when capitalized.

The well-known, self-sufficient, young titleholder reappeared at Cedar One yesterday and was interviewed by a squad of semi-pedestrian newspaper men whom he talked into a good humor. He likewise went through his first hard workout of the week, and obligingly stepped through his sparring session with whatever of importance was in the offing.

Although Tex Rickard, naming the evening hostility of the press representatives at being disappointed Sunday at both Dempsey and Tunney camps, had ordered full speed ahead, it was not certain the rain fell early yesterday morning that Tunney would work.

The blighting heat made one sympathize with him when he said he was working in such conditions would only harm him.

WATCHWORD, THE CHOICE, RUNS THIRD

Finish Is Closest in History of the Track—Head Cover Captures Third Event, Tyrol the Fourth.

By Dent McKimming,
Of the Post-Dispatch Sport Staff.

FAIRMOUNT RACE TRACK.

Sept. 16.—A horse would have a hard time winning a race if he had no feet, but there are times when his nose becomes the most essential feature of his anatomy.

In the fifth and feature event of this afternoon's program, a nose decided the issue as between Altura, the winner, Vowed Vengeance and Watchword. Not only did this tip of the nose give Altura the race, despite the noisy protests of some spectators who disagreed, but there was also no more than a nose separating the second horse from the third.

In all the races that have been held at Fairmount Park in five meetings since the fall of 1925, none has provided a closer finish.

Altura, which was pronounced the winner by the placing judges, was on the rail, having gained ground in the stretch to overtake the favorite, Watchword. The latter was close to Altura and Vowed Vengeance, coming up on the outside and showing most speed of all in the last 70 yards, was furthest from the rail or closest to the judges.

The four other starters, Taggart, Sequi, Red Ace and Miss Drapeau, formed a second division.

The winner, ridden by M. Meyer, paid \$15.10 for 12.

About 5000 persons were present.

Blaze Wins First.

Sam Louie's Blaze took the opening event on the program. The victor, a 2-to-1 favorite, was ridden by V. Peterson.

Bond Slave was second, a bare nose in front of Irish Ruina, which came with all sorts of speed in the last sixteenth, when it was too late.

Kegan Up in Last Stride.

The second, another race at six furlongs, provided a thrilling finish when Kegan, of R. L. Baker's stable, caught the pacemaker, Run-dar, in the last stride to win. Shasta Love was also coming fast in the stretch and Polycarp was less than a length back of the Shasta horse.

All three that got into the money were well backed in the mutuels.

The winner again ridden by V. Peterson, paid 55.68.

Hardy Wins on Head Cover.

Hardy gave another good exhibition of properly regulating the pace of his mount when he re-strained Head Cover in the first half mile of the third race and then came on to win in a thrilling stretch drive. Princess Darrell was the victim of this late drive by Head Cover. The filly, however, proved herself no quitter. When Legere found Hardy moving up at the head of the stretch he urged Princess Darrell and the filly responded so gamely that Hardy's first challenge failed to get results. But under the pressure of the whip Head Cover came on a second time and then the pace was too much for Princess Darrell. Boy Scout finished third.

The winner paid \$5.06 for 12.

Tyrol Takes Fourth.

Tyrol of the Bloomfield stable, an even-money favorite, defeated the reliable Louisville and Nashville as well as Gotham and three others in the fourth race. It was a six-furlong race and P. Hobbs showed furious ground in a thrilling stretch drive, hustling his mount to the front at the rise of the barrier.

The six starters were off in a line, but Tyrol put her head before the others when they had traversed one furlong. Gotham was second and Louisville and Nashville third. Both contenders moved up on the leader, but Louisville and Nashville was the victim of bad breaks. Gotham got his nose even with Tyrol one furlong from home, but the latter came on again with a surprising display of stamina to win by the smallest part of a nose.

108 Front Row Seats for Heavy Title Contest

Governors, Financiers and Society Folk to Occupy Choice Points of Advantage.

Special to the Post-Dispatch. CHICAGO, Sept. 16.—Tex Rickard blasted the hopes of many a man and woman who hoped to be right on top of the Tunney-Dempsey fight in Soldier's Field next Thursday night. He said there would be but 108 front row seats.

Among those who will occupy the much-sought front row seats will be Gov. Len Small and his son-in-law, Col. John Inghish; Mayor William Hale Thompson of Chicago, City Comptroller Charles C. Fitzmorris, President E. J. Kelley of the South Park Board; James Simpson, president of Marshall Field & Co.; George M. Reynolds, chairman of the board of the Continental and Commercial Bank; Chief of Police Michael Hughes, Corporation Counsel Samuel Ettleson, Col. R. McCormick and Mr. and Mrs. Joseph Medill Patterson and their two daughters.

Among those who made requests for tickets through President Kelley of the South Park Board and will sit in the section devoted to that body are Gov. J. S. Fisher of Pennsylvania, Mayor Frank Hague of Jersey City, Julius Rosenwald, president of Sears-Robuck & Co.; D. F. Kelly, president The Fair; George Ade, Britton L. Judd, president of the elevated lines; Edward N. Hurley, former head of the U. S. Shipping Board; Lester Armour, Laurance Armour, Phillip D. Armour, Mrs. Elizabeth Arden, Reed Landis, Judge K. M. Landis, Thomas Taggart and his son, Thomas Jr.; F. L. Thomson, vice president of the Illinois Central Railway; Jacob Loeb, former member of the Chicago school board, and Martin J. O'Brien, secretary of the military board.

A meeting of the Pullman company, set for Sept. 22, is expected to bring to Chicago at least a few of the following financiers: Harold S. Vanderbilt, W. Seward Webb, Arthur O. Choate and George F. Baker Jr. The Chicago members of the directorate are John J. Mitchell, Chauncey Kapp and Edward F. Carry. They will attend the fight.

MRS. STETSON WILL DEFEND CHAMPIONSHIP

International Flavor Added by Entry of Champions of England, France and Canada.

By the Associated Press. NEW YORK, Sept. 16.—International flavor will run strongly in the thirty-first Women's National Golf Championship starting next Monday at Garden City with the women champions of France and Great Britain entered in a field of 148 contestants which includes many of the United States and Canadian champions.

Miss Simone Thion de la Chaux, a French girl of 18, is at present the leading golfer of France and England while Canada's representative is Mrs. W. G. Stirling, the former Alexa Stirling, three times national titleholder in the United States, and Miss Ada Mackenzie, champion of Canada. American stars entered include Mrs. C. Henry Stetson of Philadelphia, the present champion, Miss Emma Collett and Mrs. Dorothy Campbell Hurd, as well as a brilliant array of golf talent from all sections of the country. Miss Collett was champion twice and Mrs. Hurd won the title three times.

The qualifying round on Monday will be at 18 holes, followed by the match play rounds, one day, also 18 holes until the following Saturday when the finalists meet for the title over the 36-hole distance. The 12 of the 148 can qualify, the rest must wait until Tuesday. Mrs. Stetson is paired with Mrs. Emma Collett to start off with Miss Virginia Brown Page of Madison, Wis. Miss de la Chaux will be paired with Miss Virginia Van Wie of Chicago, while Mrs. Hurd plays with the metropolitan champion, the Maureen Orcutt of Haworth, N. J. Miss Mackenzie will be paired with Mrs. Arnold Jackson of Greenwich, Conn., another former champion. Mrs. Presler will start out with Miss Marie R. Jenney of Yonkers, N. Y.

BRITISH POLOISTS WILL TRY "COMEBACK" IN AMERICAN OPEN PLAY

NEW YORK, Sept. 16.—The British army polo players, having failed to lift the International cup, will seek honors in the American open championship, starting tomorrow at Meadowbrook. The British four will take the field with the lineup that proved so successful in India before the reorganization was effected for the new matches. It will be composed of Capt. Richard George, Maj. J. Williams, Capt. John Denning and Maj. Eric Atkinson, Capt. C. L. Roark, who played in the international series, will be a member of Stephen Sanford's Hurricanes, winners of the open championship last year.

The British army in India four opens the tournament, Saturday, against A. C. Schwartz's Eastcott combination, which has John Hall, Anglo-Argentine star, at the helm. The American "Big Four" is led up for the tournament. Devlin Milburn and J. Watson Webb are on the Meadowbrook Club team. Tommy Hitchcock will play with J. Cheever Cowdin and Louis H. Reddard, while Malcolm Stevens will be with the Ramblers. The United States army team competes the field of seven title contenders.

MAVIS MEETS MCJOY IN ELIMINATION BOUT. HOLLYWOOD, Cal., Sept. 16.—Mavis Davies, Charlot, Pa., flyweight, who already has one more fight on the flyweight crown, which the California Boxing Commission awarded to the winner of the tournament now in progress, will attempt to make it two straight tonight when he meets Johnny McCoy of Cleveland in a scheduled ten-round match here.

Relatives Want 20 Free Tickets From Tex Rickard

By the Associated Press. CHICAGO, Sept. 16.—Tex Rickard has his "sisters and aunts" all want to see the fight next Thursday night. Rickard, visiting the old home town of his father, Springfield, Ill., a few days ago, met many long lost relatives, and promised them all tickets to the Dempsey-Tunney special.

In the crush of other matters Rickard neglected to mail the promised complimentary tickets. The relatives sent Tom Rickard, a cousin, as a committee to get the tickets. Early today cousin Tom still was pursuing cousin George Rickard for the 20 free passes.

TUNNEY CERTAIN HE WILL DEFEAT DEMPSEY AGAIN

Says That Greatest Thrill of His Career Came When He Was Crowned A. E. F. Champion.

By the Associated Press. LAKE VILL, Ill., Sept. 16.—One of the greatest moments in Gene Tunney's life is less than a week away, yet the prospect does not especially thrill him. "Strangely enough, the greatest 'kick' the fight game has given me, came not in my defeat of Jack Dempsey last fall, nor when my hand was raised in victory at the close of my first professional match with Dan O'Dowd in Jersey City," the heavyweight champion said today.

"My greatest moment came in April, 1919, in France. I had fought my way to the final of the A. E. F. tournament, a series of elimination boxing matches to determine the best fighting men at their weights in a fighting army. I fought Ted Jamieson for the championship at 170 pounds. I won, and the victory was the sweetest, the most thrilling of my career.

"Next Thursday night in Soldier Field, Ill. fight Jack Dempsey again. I was confident of victory at Philadelphia last fall. This time I am certain. To me the fight offers the opportunity of finishing the job I started then. This time I must knock Dempsey out to prove to the scoffers that there is no question of my superiority, that I am a real champion, and did not win my title on a fluke." Cries of "fake!" hurt.

Tunney Appears Bigger and Faster, Says Sports Editor

Continued From Page 19, Col. 2. easily broke up the weak simulation of Dempsey's type of fighting as done by Vidaback. The writer could see nothing in Tunney's work to indicate that any change of policy is to be followed, except that he did not back away from his sparring mates as he did from Dempsey. Tunney went through the customary bag punching and appeared rather inept. He was poor at the little bag and missed it several times. He merely dallied with the big heavy bag which Dempsey socks with such delightful exuberance and enthusiasm.

Developing Overhand Right. Yet Tunney showed several times during the workout with his sparring mates that he is sharpening up that semi-overhand right punch which goes straight to the mark with a snap. The right hand sharpshooting practice and the forward attack against Dempsey's simulated fighting style, seemed to suggest that Tunney might be planning to meet the ex-champion half way. More than once the idea has gone forth that Tunney is going to try to stop Dempsey, and do it quickly. It is no secret that Tunney was not impressed by what he considered Dempsey's poor showing against Jack Sharkey. Dempsey knocked out his foe then. But

Dempsey Stops Allen, But Is Outboxed by Peterson

Former Champion Plans Another Heavy Workout Tonight, With Newspaper Men Admitted—Will Finish Hard Training on Sunday.

By the Associated Press. LINCOLN FIELD, Crete, Ill., Sept. 16.—Jack Dempsey is this close today to the scowling ferocity of his Toledo battle eight years ago when he won the heavyweight title—he has scored his first knockout of a sparring partner since he started training here three weeks ago.

Whitely Allen, a Boston 155-pounder, took a left hook to the chin last night and folded up for the evening. Allen was the third of six sparring mates in Dempsey's third moonlight workout, which was put on before 100 visiting sports writers who had been grumbling about the secrecy of Jack's preparations. Dempsey cut loose, too, against Benny Krueger, German-heavyweight, the last of the six, but Krueger managed to last out the round. The German battler caught two of those left hooks, followed by a right to the midsection, which draped him on the ropes.

Peterson Outboxes Dempsey. In strange contrast to these two periods of furious attack, Dempsey allowed Big Boy Peterson to throw gloves at him for nearly half of their round, apparently studying the rangy New Orleans heavy-weight for his reputed similarity to Tunney's upright style. Peterson stabbed the former champion with several jabs to the head, and twice connected with right uppercuts, before Dempsey decided to start the attack. From then on Peterson was in full re-

It may betray him into the mistake of trying to carry the battle to Dempsey. If he does, many think he will be "signing off."

Excessive Heat Limits Valley Grid Practice

Light Drills Form Work of Most Squads Throughout Conference.

By the Associated Press.

KANSAS CITY, Sept. 16.—Excessive temperatures, ranking up into the nineties, limited opening football practice in the Missouri Valley Conference yesterday. Light signal drills and setting-up exercises formed the work of most squads.

Missouri Faces Hard Schedule.

Day and night workouts have been ordered for the Missouri Tigers, who face their hardest schedule in years. Eighteen letter men were among the 70 candidates who reported to Coach Gwinn Henry for a light practice.

The Kansas Aggies, who open with a non-conference game with the Hays-Kan. State Teachers.

Sept. 24, went out for light practice. Fifteen letter men were among the 50 reporting to Coach Charles Bachman.

About 60 candidates, including 11 letter men, went out for practice at the University of Kansas under the guidance of Coach F. C. Cappon.

Two practice sessions daily for the remainder of the week were on the program for the Oklahoma A. & M. squad, which last year won the mythical Missouri Valley championship. Thirty-eight candidates, including a dozen letter men, went out for practice.

Haskins Returns to Norman.

The Oklahoma Sooners at Norman were joyous yesterday with the return of Bus Haskins, speedy backfield star, who, it was previously reported, was to enroll at Michigan this year. Eleven letter men were on the Sooners squad.

A double practice session planned by Coach Nole Workman at Iowa State at Ames was cut short by the heat. Ten veterans were among those who went out for practice. Nine letter men reported to Coach Ossie Solem of Drake at Des Moines. The Bulldogs are without a captain this year, having failed to elect one last fall. They will elect a leader for each game.

46,000 FLOOD REFUGEES STILL GETTING RATIONS

Hoover in Report to President Says All Have Returned Home From Concentration Camps.

HEALTH CONDITIONS ABOVE NORMAL

**Twenty Counties, However,
Will Need Help—2,000,-
000 Acres Are Without
Money Crop.**

By the Associated Press.
WASHINGTON, Sept. 16.—Congress will be unable to take any action on the Mississippi River flood control or relief problem before its regular December session

WASHINGTON, Sept. 16.—While 92 per cent of the Mississippi flood sufferers are now providing for themselves, Secretary Hoover told

He said that this would "greatly restore confidence, security and

Returning to the Capital after an inspection trip through the flood zone, the Commerce Secretary conferred at length with the President and laid before him figures on relief and rehabilitation work.

At the same time Major-General Jadin, chief of army engineers, conferred with Secretary of War Davis on progress being made in the emergency study of flood control as a basis of a report to Congress.

Hooover reported that all flood victims had been returned to their homes.

homes from concentration camps, but that 45,000, or about 8 per cent of the stricken still were dependent, and were receiving rations.

Continuing destitution during the winter months among those unable to finance repairs to homes

and to buy furniture, seed for fall planting, livestock, chickens and clothing, was predicted for about 20 counties. The secretary could not estimate at this time the additional funds that may be needed by the Red Cross for this purpose, but said that after providing for the

Because of the second flood and other causes, Hoover said probably 2,000,000 acres of crop lands would bring no substantial money return.

Except for a few counties, the public health in the flood zone was described as "better than the normal even of non-flood years, while, it was added, organization had begun to secure financial support of the farmers and all important losses

At the War Department it was said that five separate technical engineering organizations under the chief of engineers or co-operating with him are at work on the flood control problem.

NEW LIGHTHOUSE TENDER ARRIVES ON ITS WAY SOUTH

The lighthouse tender Willow, recently built for lower Mississippi lighthouse service, arrived here today.

light house service, arrived at the municipal dock late yesterday, ending its voyage begun at Dubuque, Ia., Sept. 4. Because of its draft, which is greater than of upper river boats, it will be preceded by the Wakarusa, tender for the upper Mississippi River lights to sound the channel.

The Willow will replace the Oleander, which has tended the 66 post lights and carried supplies to the 238 men and women who care for these lights, for the last 35 years. The work of the lighthouse tender is to establish, replace and carry supplies to the lights which

Of Making Many Books

JOHN G. NEIHARDT

Always New and Old

DECLARATION OF LOVE. By Geoffrey Dennis. (Knopf.) It seems to be assumed pretty generally that a "post-war" declaration of love, to be quite a la mode, should be mordant, ironical, psychological and, from the viewpoint of an outmoded "bourgeois morality," indecent. For this reason, Geoffrey Dennis' "Declaration of Love," in spite of the red-hot subject it wears, is likely to prove disappointing to many. The philosophical mood of the book may be described as "post-war," since it is one inevitable to the self-obsessed mind that, cutting loose from the fundamental lessons of all previous human experience, declares everything with the cocksure certainty of the spoiled child who is not assumed here that such a mood has not its important human uses, however trying it may be to salute.

Though the philosophical mood is decidedly post-war, the book is quite decent, and the love involved will be readily recognized by the most respectable old folks.

"Declaration of Love" is the story of a courtship, the principal being one Yorick Tawborough, a young diplomat of Paris, and one Emma Lloyd of London. "It is not amusing, and with considerable depth of meaning, in four letters under the headings, Declaration of Friendship, Assurance of Devotion, Proposal of Marriage and Declaration of Love. The statement and meaning are for those who, having experienced the same blind process and come out of it in a fairly sane state of mind, can see the very simple truth about the metaphysical fog that is generated. There is the same old violation between emotional surrender and pseudo-intellectual skepticism, a judicial attitude little in keeping with the master impulse of which each is afraid.

When, at last, thanks to the appearance of a rival, the young man is forced to choose between the young lady quite as wildly confesses her genuine feeling, the reader who remembers it all will laugh, but not in derision.

THE SUBSTANCE OF ARCHITECTURE. By A. S. G. Butler. (The Dial Press.) It is undoubtedly true that there is far less intelligent interest in architecture as an art than in music, painting and even poetry. Intelligent buildings are commonly admired, but hardly, in most cases, with anything like the aesthetic delight that is generally associated with the products of other arts. It is with this fact in view that A. S.

G. Butler, Fellow of the Royal Institute of British Architects, has written this work. His purpose is to lead the "average" intelligent person to a proper appreciation of the best modern architecture and to show that modern architects are in direct line of descent from the men who planned the Parthenon and Amiens Cathedral. The volume is illustrated with eight full page plates.

STUFF AND NONSENSE. By Walter de la Mare. (Henry Holt & Co.) The following is characteristic: There was a young lady of Rheims. He rhymed an 'i' poet of Ghent; He rhymed on the deepest and sweetest of themes, She scorned all his efforts to please her; And he sighed, "Ah, I see, She and scolded her moonshine, mere moonshine, and she, With jubilant screams, packed her trunk up in Rheims, Cried aloud, 'I am coming, O Bard of my Dreams!'" And was clasped to his bosom in Ghent.

IS THAT SO? YOU DON'T KNOW THE HALF OF IT. Edited by Oliver D. Keep and Associates. (Bohn & Liveright.) A question-and-answer book said to be designed for the sophisticated.

HOW TO FINANCE THE HOME. By Elwood Lloyd IV. (The B. C. Forbes Publishing Co., New York.) Tells what the average person ought to know about business methods, how to make out expense budgets for the home, how to go at the matter of building or buying a home, how to invest with safety, how to provide for old age, and various other matters concerned with the practical side of the business of living.

THE OLD WIVES' TALE. By Arnold Bennett. (Doran.) A new edition of a masterly novel that appeared nearly 20 years ago. The author has written a preface in which he tells how the book was written.

WHITE HANDS. By Arthur Stringer. (Bobbs-Merrill Co.) A captain of industry comes home after an extended absence to find his daughters out at all hours of the night. Offended by their dissipation, he decides to change it all by bringing his white handed girls face to face with fundamental needs. Accordingly he takes them to a primitive camp on an island in the Northern Lakes. The tale is worked out amusingly and with some significance.

Visitor in New York

MRS. DUNCAN I. MEIER.

MR. AND MRS. MEIER OF 6457 M Cecil avenue, and their two older sons are spending some time in New York, following their summer visit at their cottage at Harbor Point, Mich. They are expected home next week.

Social Items

MISS HELEN VON WEISE. Daughter of Mr. and Mrs. George Von Weise of Greenville, Ill., will make her debut informally this winter as the guest of her uncle and aunt, Mr. and Mrs. Louis B. Von Weise of 8 Lenox place. Miss Von Weise is a graduate of the University of Wisconsin and visited Mrs. Von Weise a short time this summer before departing for a series of visits with former classmates. She will return to be a maid of honor at the Valedictorian ball, and take part in the social affairs of the season.

Mr. and Mrs. Von Weise's son, Louis Jr., and Walter Candy Jr. of California, formerly of St. Louis, are on the ocean returning from a summer trip abroad. They are classmates at Princeton University.

That the formal season is opening is made more evident by the announcement from the St. Louis Country Club of the resumption of Sunday night buffet suppers for the winter season, and weekly luncheons for wives of members and their guests. The buffet suppers will begin next Sunday night, and the luncheons Sept. 22.

Mr. and Mrs. Edwin H. Steedman of 32 Westmoreland place and their family have returned home from their summer home in Wequeton, Mich. Their daughter, Miss Almira Steedman, will enter a private school in Eighty-third street in New York for the winter, and will make her bow to society the fall of 1928.

Mrs. Blazel Shepleigh of 3 Southmoor has as her guest her sister, Miss Carolyn Schofield of Highland Park, Ill. The visitor will remain a fortnight longer.

Mrs. Roland W. Switzer of 4383 Westminster place, with her daughters, Miss Grace and Miss Stella Switzer, and her son, Roland, have returned home after a two months' sojourn in California.

Mr. and Mrs. B. B. Culver of 21 Kingsbury place, and their son, Harrison, who have been in Harbor Point, Mich., for the summer are now visiting in New York, where they are guests at Hotel Chatham. They are expected home the latter part of next week.

Mr. and Mrs. Thomas H. Wright, of 46 Portland place, who have been at their summer home in Southampton, L. I., are expected home Friday.

Mrs. Samuel P. Goddard, of 6441 Cecil avenue, who passed the summer at La Jolla, Cal., will return home Saturday.

Miss Caroline Fowler of the Kingsbury Apartments who has been spending the summer in California, returned home yesterday.

She is the guest of Miss Dorothy Collins until the return of her mother, Mrs. Mary Fowler, who, with Mrs. Fowler's other daughter, Mrs. George Boardman Bell of 98 Aberdeen place, and her children, have been spending the summer in Wequeton, Mich.

Kenneth Brookline, son of Mr. and Mrs. John Brookline of New York, is visiting his grandmother, Mrs. Samuel M. Kennard of 4 Portland place, at her summer home in Magnolia, Mass.

Dr. and Mrs. Scott Parsons and daughter, Jane, of 5159 Westminster place, have returned to the city after a two months' vacation at their cottage at Eagle River, Wis. Miss Parsons will enter Washington University for her senior year.

Mr. and Mrs. Charles Edward Huseman are giving up their apartment at 4501 Maryland avenue, and will make their home at the Congress Hotel.

Miss Grace Moulton, daughter of Mr. and Mrs. W. H. Moulton of 6226 McPherson avenue, is attending a house party in Great Barrington, Mass. She will visit former classmates at Vassar College before returning to St. Louis in 10 days.

Mrs. M. Shoenberg, who has been at Charlevoix, Mich., since early in June, occupying her summer home, "Edgecrest," returned to St. Louis Sept. 15 and is at the Hotel Chase.

Hugh Sullivan, son of Mr. and Mrs. Frank H. Sullivan of Berry road, will be a student at the University of Arizona this winter and will make his home in Tucson. Mrs. Sullivan and her son returned last week from a motor trip to Quebec, Canada.

PLAN KIRKWOOD DEVELOPMENT

OBSERVATIONS ON THE INCOME TAX.

GAIN DOES THE installment on the income tax become due. Of course, it may be argued, and not without a considerable degree of plausibility, that the income tax comes only four times a year, if you pay it that way. This is exactly three times as often as Christmas. Yet the infrequency of an occurrence proves nothing as to its desirability—we die only once in a lifetime. The income tax cannot be accepted in a merely stolid manner. We must so justify the multifarious activities of a paternalistic government that people will pay their income tax installments with a fine nerve and a hearty enthusiasm. The government furnishes aluminum bands for ducks. If a wild duck alights in your yard, the Government will furnish you a band to mark around its leg. Of course, if the duck does not care to wait until you get the band, you can save the band until a later date, or put it on the automobile. These bands are invaluable for computing a duck's mileage, although why anyone should desire to compute a duck's mileage is beyond us. Thus, if the band says, "St. Louis, Mo.," and the duck is shot down 500 miles from St. Louis, he must have flown 500 miles as the duck flies before being shot. As weather prognosticators, the bands are not lightly to be esteemed. If the duck is brought down south of the town indicated on his band, he must have been travelling south, and it is time to order the winter coat. As you pay your income tax, visualize ten million ducks flying north and south over our broad land, every one of the ten million equipped with a really ducky band.

HERRIN GETS 1929 STATE LABOR MEETING

Illinois Federation Votes at Convention in East St. Louis.

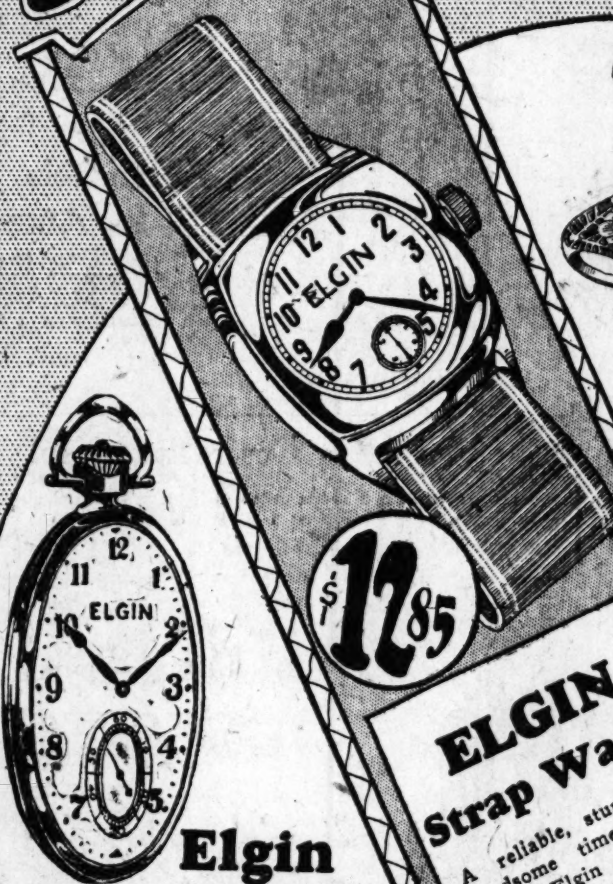

The Illinois Federation of Labor, holding its forty-fifth annual convention at East St. Louis yesterday, voted to hold next year's convention at Herrin, after Rock Island and Springfield had withdrawn in a wave of sentiment for Herrin, "one of the strike-bound cities of Illinois."

The convention extended a rising vote for the striking miners, promising them moral and financial support. President Harry Fishwick, repeating the charge that the operators were intent on wrecking the union, said the union workers were not asking an increase, but a continuation of the \$1155 a year, or \$24 a week, which he said was the average pay of the Illinois miner. He said the miners would take no reduction, but fight for the Jacksonville scale as long as "they had breath in their bodies."

In a report read at today's session, Florence Curtis Hanson of Chicago, chairman of the committee on schools, charged the Institution for Research in Land Economics and Public Utilities of Northwestern University as "masquerading under false colors." She added: "This Institute is largely supported by a private group and it is obvious that much of that support would cease the moment the announced results of the research ran counter to the economic interests of those groups."

The convention voted unanimously to increase the quarterly per capita tax from 7 to 10 cents, raising the federation's revenue \$20,000 a year. This increase will be used in campaigning for friends of labor who are candidates for public office, and in obtaining labor legislation.

TWO MEN INJURED IN AUTO COLLISION

Head-On Crash on Manchester
 Road Near Ballwin Wrecks
 One Machine.

In a head-on collision of auto-
 mobiles on Manchester road near
 Ballwin, Mo., early today, Clarence
 Bennett, 21 years old, a butcher,
 and Clarence Cox, 23, a painter,
 both of 6185 Bartmer avenue, were
 seriously injured. They were taken
 to city hospital by Bennett's father
 in a moving van, in which he had
 gone to Ballwin, after a physician
 notified him of the accident.
 The machines collided as they
 met on a curve. Walter Funk of
 Grover, driver of the other ma-
 chine, was not injured. He extri-
 cated Cox and Bennett from the
 wreckage of their overturned ma-
 chine and hailed a passing motor-
 ist, who took them to a doctor's
 office in Elliptical, where they
 were given emergency treatment.
 Bennett's skull was fractured
 and he was severely cut and
 bruised. Cox was internally in-
 jured.

HIGHWAY SHADE TREES FAVORED BY LEGION HEAD

Dan M. Nee, State Commander, Would Have Veterans Undertake Leadership in Work.

TERMED PRACTICAL COMMUNITY WORK

Kansas City Legionnaires Suggest That Route 40 to St. Louis Be Made Memorial Highway.

Special to The Post-Dispatch.
SPRINGFIELD, Mo., Sept. 15.—State highways bordered by rows of stately shade trees as the result of efforts of posts of the American Legion in Missouri are visioned by Dan M. Nee of Springfield, State Commander of the Legion, in announcing the first recommendation as to community activity on the part of the various posts for the ensuing year.

Advocating a movement to have the posts assume the leadership in their respective communities in seeing that proper trees are set out along the highways, Commander Nee said that he believed this would prove one way in which the Missouri legionnaires could be of distinct service during the year. The idea was advanced by the marked improvement in health—your druggist is authorized to return the purchase price.

The name McCoy's Cod Liver Oil Tablets has been shortened—just ask for McCoy's Tablets at Wolff-Wilson Drug Stores or any drug store in America.

Setting out of trees along the highways is understood here to have the sanction of the State Highway Commission, and the possibilities afforded in this way are understood to have been called to the attention of the commission by the American War Mothers of Missouri.

"Memorial Highway" Suggested.
"A somewhat similar movement on a more limited scale," Nee said, "was suggested recently by legionnaires of Kansas City, and has the endorsement of the State Department of the Legion. The plan of the legionnaires of Kansas City and Jackson County, in which they will ask the co-operation of other posts along the route, is to have U. S. Highway No. 40, the direct road between Kansas City and St. Louis, designated officially as Memorial Way, and properly beautified with this thought in view.

"My understanding is that the Kansas City legionnaires have a two-fold plan of beautification. One takes the form of ornamental gateways at the various county lines crossed by the highway. The other is to see that shade trees are set out on each side of the highway throughout its entire length. This work should make the highway one of the most attractive in the state, and I am sincerely hopeful that the idea of the veterans who have made the suggestion can be carried out. The co-operation of the posts in the various counties traversed by the highway of course is essential."

Commander Nee then discussed the highway beautification plan if carried out throughout the entire state. Should this plan be carried out, he believes, it would be a few years until Missouri would be known over the entire country as the state whose highway system was a network of tree-bordered avenues.

Practical Community Work.
"Ever since I have been a member of the Legion," the commander said, "I have felt that one of the most important of its activities should be that of community development. And I can think of no more practical plan for this sort of service than the setting out of trees along all the highways of the state where this can be done to advantage.

"Not only will it tend further to justify the existence of the Legion but it will furnish an additional cause for the people of the state to have a high regard for the organization and will be a worthwhile factor in interesting veterans of the Legion who are not members and urging them to join.

"Persons who have had occasion to make automobile tours of some length know at once the appeal of the road that is bordered with stately trees, especially in those sections where groves are not common and the trees along the highway serve as a delightful relief not only in the view but in providing shade."

range from one-fourth to one-half of his salary of \$250 a month—Lieut. Deatherage, who is 61 years old, joined the force in June, 1891. During most of his career as a policeman, he was attached to police districts of South St. Louis. Recently Lieut. Deatherage bought a home in Webster Groves, where he will live with his wife, a son, Walter, and a daughter, Miss Elsie.

Whols Your Skinny Friend, Ethel?

MAYOR'S FRIEND'S BID GETS O.K. OF BROD

Three Competitors Lower Than Stutz Company on Fire Department Pumps.

The Stutz Fire Engine Co. of Indianapolis, represented here by Wayne Bromley, friend of Mayor Miller's administration, is recommended by Director of Public Safety Brod to furnish six pumps, each of 750 gallons a minute capacity, to the Fire Department, although there were lower bidders for this particular contract.

The Stutz bid for supplying the six pumps is \$62,700; the General Manufacturing Co. of St. Louis, \$54,850; American La France Co. of Elmira, N. Y., \$49,400, and the Four-Wheel Drive Co., \$62,335.50. There are three bidders higher than that of the Stutz company.

Director Brod's recommendation was made to the Board of Standardization, which has wide powers in passing on bids for fire apparatus. In one other case, Brod recommended acceptance of a bid which was not the lowest. This was in the purchase of one 1300-gallon pump, in which the bid of the Ahrens-Fox Fire Engine Co. of Cincinnati was recommended, although it was higher than that of the American La France Co.

The Ahrens-Fox bid was \$12,550, and that of the American La France Co., \$13,500. Stutz and two others were bidders, on the 1300-gallon pump.

Robert J. Krutky, who was Mayor Miller's campaign manager, and who has been active in behalf of the Stutz concern, said today that he was not counsel for Stutz or his local representative, but had represented the latter's brother, Samuel Bromley. He said he was not getting a fee from the Stutz people, but wished to see Wayne Bromley treated fairly, because of his friendship for the administration.

Acceptance of the Stutz bid, \$23,900, for two 1000-gallon pumps, was also recommended by Brod, but in this case Stutz was the low bidder in the field of five. The other contract to be let is for two aerial tractors, and acceptance of the American La France bid of \$28,950, the lowest in that competition, is recommended. However, Director Brod recommends that, if the money provided does not suffice for all the items, a new letting be held on the aerial tractor, as the total of bids recommended is \$123,400, and the money available is \$128,650. This would appear to mean a new letting.

After bids were opened Aug. 16, Director Brod was notified that the Stutz company would give a discount of 5 per cent from 1/2 quoted prices if it could have the entire contract. As the city had advertised for bids on individual items, it is not likely that the entire contract will be given to Stutz for the sake of this discount. The Board of Standardization, however, might throw out all bids and call for new bids on the entire lot of supplies. Computation has shown that the Stutz figures, minus 5 per cent discount, would be \$123,395, as compared with the lowest total among other bidders, \$123,550 for the American La France Co., without a discount.

In a previous controversy over fire apparatus, Mayor Miller took the position that the lowest bid should be accepted and ordered apparatus purchased from the American La France Co., though Comptroller Nolte urged the acceptance of a higher Ahrens-Fox bid.

FIREMEN EXONERATED

OF DAWDLING AT BLAZE

Charges of Needless Delay in Putting Out Fire in Negro Dwelling

Full Flat.

City firemen accused by J. Roger Inge, Negro real estate agent, of deliberately dawdling in their efforts to put out a fire in Negro frame dwellings at 424 and 426 San Francisco avenue, early Wednesday, were exonerated by Director of Public Safety Brod and Fire Chief Alt after a hearing at the City Hall.

Testimony presented by District Chief Alfred Totte, Capt. Bloomfield and Lieutenants Tesson and O'Brien, in charge of this fire, was that it had been extinguished at 8:19 a. m., 35 minutes after the first alarm had been turned in. The buildings were saved with about \$2500 damage.

The firemen testified that the only delay occurred between the laying of two hose lines and the turning of the hydrants, an interval of about a minute, which is customary under regulation procedure. Several Negro witnesses asserted this delay was 15 minutes, but admitted they did not have watches and were excited. Director Brod said after the hearing that the fact the buildings were saved at all was prima facie evidence of quick, efficient work by the firemen.

CANCER-REPORTED INCREASING

Medical Convention Told It Causes 10 Per Cent of Deaths.

By Associated Press.

ASHEVILLE, N. C., Sept. 16.—One out of every 10 human beings succumbs to cancer, Dr. William P. Healy of New York declared, in an address at the annual convention of the American Association of Obstetricians, Gynecologists and Abdominal Surgeons here. He added that the disease was on the increase and asserted that one out of five women between the ages of 45 to 65 years also dies from the disease.

A NICE LUNCHEON DISH

Considerably Different From the Ordinary Way of Serving Eggs. Another nice egg dish is baked eggs. They are nice for luncheon. To make this dish take four cups cooked potatoes, two pintenoses, one green pepper, two tablespoons grated onion, four tablespoons butter of melted fat or drippings or cooking oil, two tablespoons flour, one tablespoon salt, one cup milk, pinch of pepper, six eggs and one-half cup buttered bread crumbs.

In greased baking dish or casserole place sliced cooked potatoes, finely chopped pintenoses, green pepper and grated onion. Make a white sauce with butter, flour, salt, pepper and milk and cook in double boiler, until thick and smooth. Turn over potato mixture; and with a tablespoon make six indentations and into each break an egg. Dust with paprika and a teaspoon salt; cover with bread crumbs and bake in a moderate oven 35 minutes.

Purpose of Eating.

Foods serve three purposes in the body: furnish energy necessary for muscular exertion; act as fuel to provide the body heat; supply material for the repair of worn-out, or growing, muscle tissues.

ABOUT COLD BEVERAGES

Bottled Drinks Being So Commonly Used, Consider Their Value.

It is when we come to consider the cold beverages that we find something more than extra stimulation to think about.

Cold drinks which have no tonic value, expressed from fruit are in a class of beverages themselves. So valuable are the salts and vitamins contained in the fruit juices that fruit beverages may, in a very real sense, be considered food as well as drink.

As for the sparkling water, ginger ales and drinks of this type they are an excellent addition to the fruit juices. In fact, for small folk, they are better than in this manner.

RECIPES FOR DISHES IN WEEK'S MENUS

Directions for Making Several Different and Appetizing Dishes.

With this recipe as a suggestion any number of baked vegetable casseroles may be originated. A combination consisting of three tomatoes, a small head of cabbage, chopped and mixed with two cups of finely broken spaghetti and topped with bacon, is especially good.

Peas and quarter the potatoes, pare the cucumber, break up the cauliflower, wash and scrape the carrots, and remove the center and seeds from the green pepper. Run all through the food chopper, using the coarse blade, into a buttered baking dish. Add the salt and milk and sprinkle the top with bread crumbs, dot with butter, cover and bake for forty minutes in a hot oven—400 degrees F. Uncover during the last fifteen minutes. When the dish is to form the main dish of a meal complete it by grating the yolk of a hard-cooked egg in the center, radiating the white in slender slices from it to resemble a daisy.

Squash Pie.

Line a pie pan with pastry and fill with the following mixture: Two cups of steamed or baked squash which has been rubbed through a sieve, three-fourths cup sugar, two tablespoons flour, one-half teaspoon salt, one-fourth teaspoon each of cinnamon, mace and cloves, one egg and two cups milk. After filling the lined pie pan with the mixture, bake pie for one hour in a moderate oven.

Pear Salad.

Arrange canned pears on heart lettuce leaves. Fill the cavities with the following dressing and sprinkle with chopped nut meats.

Dressing for Pear Salad.

Break one cake of cream cheese into one cup of thick cream and beat until firm. Serve immediately.

Cucumber Salad.

Thoroughly drain one cup of crushed pineapple. Mix with one cup of finely diced cucumber and add mayonnaise to moisten well. Arrange on lettuce and garnish with strips of red pimento.

Peach Cobbler.

Two cups pastry flour, four teaspoons baking powder, one teaspoon salt, five tablespoons fat, one tablespoon butter, four tablespoons canned milk diluted with six tablespoons water, eight large peaches, one cup sugar, one tablespoon water.

Sift flour with baking powder and salt twice. Rub fat into flour with fingers until appearance is like coarse corn meal. Add liquid to dry ingredients and mix quickly but thoroughly. Toss dough on to board dusted with bread flour. Pat or roll out to one-half inch thickness. Have peaches pared and cut into quarter-inch slices. Place peaches in a buttered pan that is deep enough to hold them. Sprinkle with sugar, and butter in bits.

TRY USING WATERMELON IN COMBINATION DISHES

This Season Has Introduced Watermelons in Salads and Combination Desserts.

Have you ever tried serving watermelon in combination with other fruits and vegetables? If not the two dishes described below will be worth trying.

Watermelon Salad. With a French vegetable cutter cut small balls from a watermelon which is very ripe and has a good red color. Remove the seeds carefully. Put the balls in the ice box to chill. When ready to serve arrange in cups of small crisp lettuce leaves and garnish with sprigs

of mint. Serve with French dressing.

This salad is very attractive in a bed of fresh green watercress.

Melon Ice Balls. Peel pineapple and cut from it enough balls with a French vegetable cutter to give each person three or four. Have cantaloupes and remove seeds. Cut as many melon balls as you have pineapple. From watermelon cut same number of balls. Sprinkle balls with a little powdered sugar. Put in refrigerator and freeze as long as necessary to become partly congealed and deliciously cold.

When ready to serve put several balls of each kind in individual cocktail or sherbet glasses, pour over them several spoonfuls of

Pickled Onions. Take two pounds small onions, two quarts water, three-fourths cup salt, two teaspoons horseradish, one-half teaspoon cayenne pepper, two teaspoons cloves, four teaspoons cinnamon bark, one quart white vinegar and one cup brown sugar.

Remove with a knife outer skins of small silver-skinned onions and put into brine made of two quarts water and three-fourths cup salt, and let stand for two hours. Then drain onions, put in jars in layers, covering each layer with chopped horseradish, cayenne pepper, cloves and cinnamon bark. Heat to boiling-point; pour over and brown sugar, pour boiling syrup into jars until they overflow and seal at once.

Tomato Jelly. Break ripe tomatoes into pieces and stew them until done, in as little water as will keep them from burning. Pour all the pulp into the jelly bag, and when the juice has trickled through add a pound of loaf sugar to each pound of the juice. Return it to the stove and let it boil rapidly until it jellies. This is very nice with roast meat.

Green, Red or Yellow. Make Delicious Pickles and Preserves.

Green tomato pickle, yellow tomato preserves and red tomato jelly testify to the versatility of this popular vegetable. Tomatoes can be used in all stages of development. It is an easy vegetable to put up as the following recipes show.

Green Tomato Pickle. Take one peck green tomatoes, 12 onions of medium size, two lemons, three green peppers, two quarts water, two quarts vinegar, one bunch celery, three-fourths cup salt, two pounds sugar, two cups whole pickling spice.

Wash the tomatoes and onions, doing the same to the lemons. Separate the cauliflower to little flowerets. Take one cup of peppers and chop peppers in layers, sprinkling each layer with salt. Let stand over night. Drain in the morning, then add one cup of vinegar, and two quarts water, and bring to a boil. Cook for fifteen minutes. Then drain again. Make a syrup by boiling together for fifteen minutes, the sugar, water, vinegar, with the spices together in a muslin bag. Add the mixture to the syrup, let come to a boil and seal in hot sterilized jars.

Yellow Tomato Preserves. Take six pounds of yellow tomatoes, one pound of sugar, one eighth cup minced green grape root, juice and grated rind of four lemons.

Blanch tomatoes and remove skins. Add sugar, lemon juice and rind and ginger root. Let stand overnight, then cook gently until thick. Pour into sterilized jars and seal at once.

Tomato Marmalade. Four quarts ripe tomatoes, six lemons, one cup raisins and one pound sugar.

Peel tomatoes and cut in thin slices. Wash lemons and slice very thin. Put all ingredients in a saucepan and cook slowly for about one and one-half hours or until mixture is of the consistency of marmalade. Turn into sterilized glasses or jars and seal at once.

Spiced Tomatoes. Take two quarts tomatoes, six pounds sugar, one tablespoon spice, one tablespoon cinnamon, one and one-half teaspoon cloves and one tablespoon nutmeg, all mace.

Skin and slice tomatoes; add sugar and spices and put in a bowl. Boil the mixture until it is of consistency of jam. Turn into sterilized glasses or jars and seal at once.

Plum Pie. Have a pie pan lined with rich pastry. Remove the pits from two cups of large blue or red plums, dredge with flour, add half a cup sugar, two tablespoons lemon juice and one tablespoon butter. Fill lined pie pan with this mixture and cover with a top crust. Bake until nicely browned. May be served either hot or cold. When served cold whipped cream is a nice addition or a serving of vanilla ice cream.

Plum Tart. To make the crust use one and one-fourth cups flour, one-half teaspoon baking powder, three-fourths teaspoon salt, one-fourth

BLUE PLUMS MAKE FINE JAM

Their Acid Taste Adds to the Fine Flavor of the Product.

The large blue and purple plums that you see at the market and grocery stores make excellent jelly, jam and preserves. They are also easily canned for use in pies and puddings next winter.

Plum Marmalade.
Take the plums before they are really ripe. Cover with boiling water and boil slowly until they are thoroughly cooked. Put them through a wire strainer. Measure pulp and add an equal amount of sugar. Simmer until the sugar is thoroughly dissolved. Turn into sterilized jars or glasses. If jelly glasses are used, cover with paraffine when cool.

Green Tomato Pickle.
Take one peck green tomatoes, 12 onions of medium size, two cauliflower heads, three green peppers, two quarts water, two quarts vinegar, one bunch celery, three-fourths cup salt, two pounds sugar, two-thirds cup whole pickling spice.

Wash the tomatoes and slice them, doing the same to the onions. Separate the cauliflower into little flowerets. Take seeds out of peppers and chop peppers up. Wash and dice the celery. Place all in a large preserving kettle in layers, sprinkling each layer with salt. Let stand over night. Drain in the morning, then add one quart of vinegar, and two quarts water and bring to a boil. Cook for fifteen minutes. Then drain again. Make a syrup by boiling together for fifteen minutes, the other quart of vinegar, with the sugar and spices (tie the spices together in a muslin bag). Add the mixture to the syrup, let come to a boil and seal in hot sterilized jars.

Yellow Tomato Preserves.
Take six pounds of yellow tomatoes, one pound of sugar, one-eighth cup minced green ginger root, juice and grated rind of four large lemons.

Blanch tomatoes and remove skins. Add sugar, lemon juice and rind and ginger root. Let stand over night, then cook gently until thick. Pour into sterilized jars and seal at once.

Tomato Marmalade.
Four quarts ripe tomatoes, six lemons, one cup raisins and four pounds sugar.

Peel tomatoes and cut in thin slices. Wash lemons and slice very thin. Put all ingredients in sauce pan and cook slowly for about one and one-half hours or until mixture is of the consistency of marmalade. Turn into sterilized glasses or jars and seal at once.

Spiced Tomatoes.
Take two quarts tomatoes, two pounds sugar, one tablespoon allspice, one tablespoon cinnamon, one and one-half teaspoon cloves and one tablespoon nutmeg or mace.

Skin and slice tomatoes; add sugar and spices and put on to cook. Boil the mixture until it is the consistency of jam. Turn into sterilized glasses or jars and seal at once.

cup water, one-third cup shortening. Sift dry ingredients and add shortening, mix well together and water. Toss on floured board and roll out. Fill tart pans with pastry.

Peel, stone and halve plums. Turn into tart pans lined with crust; put on upper crust and bake fifty minutes in a moderate oven.

Cheese and Pie.
It is always associated with apple pie, either plain or grated, and sprinkled over the crust before baking. It is delicious grated and added to the dry ingredients when making the crust for an apple pie.

Quick Lunches for School-Days

School-days! It's hurry home—hurry through lunch—hurry back to school.

But morning's lessons and morning's play have used up a lot of strength and energy; afternoon's activities need a lot more. And little minds must be alert after lunch—to pay attention to teacher.

How important, then, that the school-day lunch renew that store of energy and vim; that it digest quickly and be assimilated easily! Try TODDY—"A Meal in a Glass"—for the children's luncheon drink. Served hot or cold, it makes any lunch a highly nourishing meal.

Mixed in a minute without fuss or muss; digests quickly and easily. Sends the children off again to school—bodies full of vigor, minds clear and keen.

This is because TODDY, made with milk, is rich in carbohydrates for energy, proteins for body-building, minerals for blood, bones and teeth, and enzymes for digestion.

Best of all, children eagerly drink TODDY—just love its flavor.

Quality and Economy

Winning New Users Daily

The rich, uniform quality of Wilson's Milk is winning new users every day. Women who want the best are asking for Wilson's by name, because they know it serves every milk and cream need with satisfaction and surprising economy. In addition the profit-sharing labels may be exchanged for a great many useful articles—silverware, glassware, kitchen utensils, towelings and other standard merchandise. Until you've used Wilson's you have no idea how good evaporated milk can be.

ARCHBISHOP WILL LAY CORNERSTONE OF CHURCH

Procession to Mark Ceremony at New \$210,000 Home of St. James' Catholic Congregation.

The corner stone of the new St. James' Catholic church, Tamm and Wade avenues, will be laid next Sunday at 1:30 p. m. by Archbishop Glennon, assisted by a number of the clergy.

The new building, which will cost \$210,000, will be of Gothic architecture, the exterior being Bedford stone. Decorations will include imported window glass with medallions and the stations of the cross in tapestry. The liturgical altar will be of marble and carved wood. The church spire of steel and copper will rise 80 feet above the roof. The building will seat 800 persons.

The corner stone laying ceremony will include a procession of parishioners, Knights of Columbus Zouaves and members of various parish societies. The Rev. D. J. Lavery, D. D., will deliver the principal address. A former pastor of St. James' parish, the Rev. Edmund A. Casey, organized the first Holy Name Society chapter in St. Louis and was the charter chaplain of the Knights of Columbus of Missouri. The present pastor is the Rev. P. J. O'Connor.

BENNETT CLARK IMPROVING
Son of Late Champ Clark Suffered Relapse After Tonsil Operation.

The condition of Col. Bennett C. Clark, son of the late Champ Clark, who has been ill at the Jewish Hospital, today was reported as improved. Col. Clark, whose tonsils were removed in August, suffered a relapse about two weeks ago, and was compelled to return to the hospital.

Col. Clark is a member of the law firm of Fordyce, Holliday & White. He was a Colonel in the A. E. F. during the World War, and on his return to the United States was active in organizing the American Legion. He formerly was parliamentarian in the House of Representatives at Washington, and is active in State Democratic politics. His name has been mentioned in connection with the coming race for Governor.

Twins Named Gene and Jack.
CHICAGO, Sept. 16.—Two sons of Mr. and Mrs. Nels Wickum have been christened Jack and Gene at the Lakeview Hospital. Jack weighs 8 pounds and 6 ounces, and Gene 6 pounds and 11 ounces. The father said he had to study the two awhile until the one with the scowl earned the name Jack, and the smiling one Gene, like their famous namesakes' countenances in the ring.

Auto Store Robbed of \$250.
Two men, one of them armed, held up a branch of the Star Square Auto Supply Co., 5922 Gravois avenue, about 9 o'clock last night, and forced the manager, Elmer Meador, to point out a box on the display shelves which contained the day's receipts. It contained \$250. They fled in an automobile.

Selection of E. L. Hawk Is by Acclamation; Next Meeting at Denver by the Associated Press.

GRAND RAPIDS, Mich., Sept. 16.—Eldridge L. Hawk of Sacramento, Cal., was elected Commander-in-Chief of the Grand Army of the Republic by acclamation yesterday. This is the first time that a G. A. R. Commander has been elected from the Pacific Coast.

Denver, Colo., was chosen for the 1928 encampment. Calvin A. Baird of Buffalo was unopposed for Senior Vice-Commander. The offices of Junior Vice-Commander, Chaplain-in-Chief and Surgeon General will be voted on today.

Walter Mable of Philadelphia was elected Commander-in-Chief of the Sons of Veterans' organization, and D. B. Boelway, San Francisco, Senior Vice-Commander-in-Chief. Mrs. Margaret L. Waters, of Woburn, Mass., was named national president of the Ladies' Auxiliary to the Sons of Veterans' organization and Cora Swartz, Indianapolis, national vice president.

The BENSON MURDER CASE

by S. S. VAN DINE © CHARLES SCRIBNER'S SONS

Characters of the Story.
PHILO VANCE. District Attorney of New York County.
JOHN F. MARKHAM. Well-known Wall street broker and man-about-town, who was mysteriously murdered in his home.
MAJ. ANTHONY BENSON. Brother of the murdered man.
MRS. ANNA FLATZ. Housekeeper for Alvin Benson.
MURIEL ST. CLAIR. A young singer.
CAPT. PHILIP LEACOCK. Assistant District Attorney.
LEONARD PYTE. Intimate of Alvin Benson's.
MRS. PAULA BANNING. A friend of Pyte's.
ELISE HOFFMAN. Secretary of the firm of Benson & Benson.
COL. HENRY OSTRANDER. A retired army officer.
WILLIAM H. MORIARTY. Of the firm of Stitt & McCoy, public accountants.
MAURICE DINWIDDIE. Assistant District Attorney.
ERNEST HEATH. Sergeant of the homicide bureau.
BURKE SNITKIN. Detective of homicide bureau.
BEN HANLON. Commanding Officer of Detectives assigned to District Attorney's office.
PHILIPS TRACY SPRINGER. Homicide bureau.
HIGGINSBOTHAM. Detectives assigned to District Attorney's office.
CAPT. CARL HAGEDORN. Fire-arm expert.
DR. DOREMUS. Medical examiner.
FRANK SWACKER. Secretary to the District Attorney.
CURRIE. Vance's valet.
S. S. VAN DINE. The Narrator.

Dr. Doremus approached the murdered man with a callous indifference. He first inspected the face closely—he was, I imagine, looking for powder marks.

limbs. The body was then undressed, and Dr. Doremus examined it carefully for other wounds. He paid particular attention to the arms; and he opened both hands wide and scrutinized the palms. At length he straightened up and wiped his hands on a large colored silk handkerchief.

"Shot through the left frontal," he announced. "Direct angle of fire. Bullet passed completely through the skull. Exit wound in the left occipital region—base of skull—you found the bullet, didn't you? He was awake when shot, and death was immediate—probably never knew what hit him. He's been dead about—well, I should judge, eight hours; maybe longer."

"How about 12:30 for the exact time?" asked Heath.
 The doctor looked at his watch. "Fits O. K. . . Anything else?"
 No one answered, and after a slight pause the chief inspector spoke.

"We'd like a post-mortem report today, doctor."
 "That'll be all right," Dr. Doremus answered, snapping shut his medical case and handing it to his assistant. "But get the body to the mortuary as soon as you can."

After a brief handshaking ceremony, he went out hurriedly. Heath turned to the detective who had been standing by the table when we entered.

"Burke, you 'phone headquarters to call for the body—and tell 'em to get a move on. Then go back to the office and wait for me."

Burke saluted and disappeared. Heath then addressed one of the two men who had been inspecting the grilles of the front windows.

"How about that ironwork, Snitkin?"
 "No chance, Sergeant," was the answer. "Strong as a fall—both or 'em. Nobody never got in through those windows."

"Very good," Heath told him. "Now you two fellows chase along with Burke."

When they had gone the dapper man in the blue serge suit and derby, whose sphere of activity had seemed to be the fireplace, laid two cigarette butts on the table.

"I found these under the gaslogs, Sergeant," he explained unenthusiastically. "Not much; but there's nothing else laying around."

"All right, Emery," Heath gave the butts a disgruntled look. "You needn't wait, either. I'll see you at the office later."

Hagedorn came ponderously forward.
 "I guess I'll be getting along, too," he mumbled. "But I'm going to keep this bullet awhile. It's

got some peculiar rifling marks on it. You don't want it specially, do you? Sergeant?"
 Heath smiled tolerantly. "What'll I do with it, Captain? You keep it. But don't you dare lose it."

"I won't lose it," Hagedorn assured him, with stolid seriousness; and, without so much as a glance at either the District Attorney or the Chief Inspector, he waddled from the room with a slightly rolling movement which suggested that of some huge amphibious mammal.

Children's Bedtime Story

The Mysterious Disappearance

Mystery is seldom nice,
 But it gives to life a spice.

—Farmer Brown's Boy.

FARMER BROWN'S BOY looked at Farmer Brown. Farmer Brown looked at Mother Brown, and Mother Brown looked at the other two, and on each face was the same funny expression. They were standing in the room of Farmer Brown's Boy.

"What do you make of it? Is that a real Bear, or is it a ghost Bear?" Farmer Brown grinned. "By the looks of things around this house I'll say that it's a real Bear."

"But where under the sun he's gone to now is beyond me. We heard him racing around upstairs here when we started to come up and he hasn't had a chance to get downstairs since. He must be there."

"But where?" asked Farmer Brown's Boy. "None of the closet doors is open. Nevertheless, I've looked in every closet. We have pulled the clothes off every bed. There isn't a place in these rooms big enough for a squirrel to hide, let alone a Bear, even if he is little. He couldn't have gotten out of the window, because the screens are in all of them. He must have gotten downstairs somehow, though how, I haven't the least idea."

Farmer Brown shook his head. "No," said he. "He couldn't have gotten downstairs. He was upstairs when you and I started up. Your mother was at the foot of the stairs by the time we were at the top. He couldn't possibly have gone downstairs without being seen by her."

Farmer Brown's Boy grinned. "All perfectly true," said he, "so supposing you tell us where he is?"

It was Farmer Brown's turn to grin. "He's a mystery Bear," said he. "It looks to me as if he couldn't get out, but did. Probably he is laughing at us now. Are you absolutely sure that no closet door was open? One may have

Wherever he was, he was keeping very, very still

been open and blown to after he had gone in, or been pushed to."

"I am absolutely sure," replied Farmer Brown's Boy, "but just to make doubly sure, we'll go through those closets again. Mother can stay right here at the head of the stairs while we search the closets in all the rooms."

So Mother Brown remained at the head of the stairs while Farmer Brown and Farmer Brown's Boy opened and searched every closet. They made a good job of it, too. But they didn't find Cubby. Moreover, they didn't find any signs that Cubby had been in any of the closets. There was no stickiness anywhere. Nothing was upset or disarranged, as was the case in the various bedrooms.

"Well," said Mother Brown. "It isn't well," said Farmer Brown. "He isn't in any of the bedrooms. You've seen that for yourself. I think he is bewitched."

All this time Cubby was in one of the bedrooms and he was waiting. Where do you think he was? This much I can tell you: Wherever he was, he was keeping very, very still. He was keeping as still as any mouse that ever lived.

Autumn in the Garden

By Wanda Barton

EVERY garden has some pivotal point of interest which attracts the visitor. Lucky the owner who makes this point a sun dial, set to advantage and surrounded by flowers of soft coloring.

The inscriptions for the dial are generally taken from old ones, but in modern gardens we find old dials with new ideas, as it were, a concession to the time in which we live.

"My Place is in the Sun; Find Yours." "I Tell Time in Sunlight; You Must Carry It at Night." The setting of the dial may be expensive, but it is a formal one, and simple for the old-fashioned garden. The dial generally faces the sun, but at times we find them on a side wall of a house, or on a side of a marble shaft, set in such a way that the sun strikes it at every point.

Perhaps the summer house may be the center of our garden interest. It is so easy to move outdoors these days, and the service wagon makes things so easy. The summer house may be wired so easily and inexpensively, not for lighting, but for cooking. Such a lot may be done with the grill that it is like having two or even three gas holes to work with; and a dish warmer can be used to keep things hot during the serving. Special plugs should be installed for tea kettle or coffee percolator. For greater comfort the summer house should be screened.

Almost any style of summer house looks best if it is surrounded with greenery rather than flowers. Growing ferns of the brake family do well close to a building and in the shade. There are a few running or climbing vines that are suitable for these structures, those that blossom being preferred.

A fountain is always a delight and may be had for a reasonable outlay. Such a lot may be done with a concealed city water tap, that to have a garden without a fountain is almost inexcusable. The fountain may be easily placed with a small amount of piping and there are so many ways of arranging the basin artistically.

The Woman Who Flatters

By Lucy Lowell.

SHE'S been with us again—the flatterer. Everyone calls her that. Some a bit wonderingly, others with more than a little contempt.

For she works so hard at the art of blandishment. So much too hard, dripping soft words and softer glances, never missing a chance to say the honeyed thing. And even in the first half hour of her acquaintance you ask yourself, "Can she mean all that? And, if she does, what is she like, anyway?"

"Has she no dislikes, preferences, differences of opinion, certain little hardenings that are rocks of character? Why should she be so overly pleased with everything? 'And if she doesn't mean it, your thought goes on. 'Why, then, isn't the woman herself you see before you, but a mask she has made up to wear. And there must be something disagreeable she wishes to hide if she wears a mask.'"

And a time goes along and you get to know her better you rather swing round to the opinion that she doesn't mean it. And then you feel somewhat resentful, for, after all, nobody likes to meet a mask. And then all her soft words fall flat and all her blandishments are as empty air.

What we admire in others more, perhaps, than any quality is sincerity. Even if it isn't always quite agreeable we like it because it is open and aboveboard and we never can take away from it the uncomfortable sense of having been defrauded.

"Let these flatterer who fear," said Thomas Jefferson. "It is not an American art. To give praise where it is not due might be well from the venal, but would ill become those who are asserting the rights of human nature. They know and will, therefore, say that Kings are the servants, not the proprietors, of the people."

No, flattery is not an American art, nor does it accord with the fine, frank spirit of Americans.

Something Under Cover.

The policy of keeping nothing under cover, attributed to the modern flapper, may have to be revised if the vogue for long sleeved nighties continues to grow. The plethora of material in the sleeves, however, is made up by the depth and width of the neckline. Many of the new silk gowns are decorated with smocking on the sleeves and shoulders.

Things Bought at the Bakery

CITY bakeries are well patronized. Busy people who have little time to do their own baking find the ready cooked things acceptably made nowadays. It is a well-known fact that the bakery and biscuits dry out faster than home-made; for that reason they must be very well cared for and purchased with extreme discretion.

Most of the breads are wrapped in cellophane paper keep pretty well if placed in a tin container excluded from the air. Muffins and biscuits keep best in their paper bags also in the tin containers. Most of the coffee cakes keep overnight, and after that they simply dry out until they are uninviting.

If it is desired to rehearse the various biscuits or muffins, leave them in the paper bags and set them in the oven and they heat through quickly and satisfactorily.

The so-called Maryland biscuits make excellent individual short cakes if after heating they are pulled apart and the crumbly interior, then filled with the prepared berries that are also put over the top.

The English muffins should be pulled apart, never cut open, carefully toasted and well buttered, served on a hot plate with a cover to keep them from getting cold. For breakfast toast a close textured sliced in medium slices, neatly crusted cut off. Toast delicately, have soft butter ready for buttermilk, sprinkle thickly with cinnamon and sugar and serve on hot plates. If the crumbly interior is pulled apart and the crumbly interior, then filled with the prepared berries that are also put over the top.

A baker's loaf may be cut in slices two inches thick, crumbly pulled apart, then with a sharp spoon one side may be hollowed out. Next dip, or brush over with heavy brush with soft butter and put in a slow oven to toast. When delicate brown the cases are ready for filling with any creamed fruit, and are very decorative as well as edible.

Designed for insertion in automobile instrument boards, an Ohio inventor's clock dispenses with hands, numerals for the hours and minutes appearing through openings.

There isn't any question about the corn flakes people like best. Here or the world over. In every country on earth, Kellogg's outsell all other corn flakes by big odds. The most popular ready-to-eat cereal made!

Kellogg originated corn flakes. And no imitations have ever equalled that original Kellogg flavor and crispness. Not even approached Kellogg's overwhelming popularity!

SEPT. 1, 1937.
Again the capital of fashion and the city of whims sends us the coquettish hat with the narrow lace veil.

The entrancing veil appears scarcely a quarter of an inch below a new velvet hat, but its presence is responsible for the smartness of the accompanying chapeau. The hat, made of cocoa velvet, has a wide band of blue and gold brocade, and the veil is of deep brown lace.

Nut Cake, Lemon Filling
Make the cake the same as for the coconut layers, adding when ready a cupful of chopped nuts. The lemon filling is made by straining the juice of four lemons into a saucepan, add four beaten eggs, a half teaspoonful of baking powder, mixed in a level cupful of sugar, a half cupful of butter and three-quarters of a cupful of water. Mix well and stir gently as it boils for two minutes. Cool and spread thickly between the layers and over the top and sides. Decorate the cake on top with halved nuts.

TWENTY-THREE YEARS AGO AND NOW

Was Discovered When a Belleville Organization Held a Reunion That Figures Have Changed as Well as Fashions, So the Style Show That Had Been Planned Couldn't Be Given.

WHEN the long-disbanded Junior Bible Class of the First M. E. Church, Belleville, held its twenty-third anniversary of its organization, it was planned to have a style show, with members wearing the things that they wore 23 years ago. But it couldn't be done. The things that used to be worn were dragged from their attics, but the women who were then when they were 14 years old didn't get into them. It seems that 23 years make a difference in figures as well as in fashions. They were plenty long but very narrow. Anybody could see that. So the style show had to be omitted.

Everything else, though, was 23 years behind the times. The 85 members who gathered in the afternoon at Belleville Park brought with them baskets filled with the foods that were popular at picnic dinners in the early part of the century. They played the games that they used to play, when they were boys and girls, and the children of some of them looked on and marveled at their unexpected agility.

At nightfall they went to Epworth Community Hall nearby for a show of the period of 1914, which revealed them as the camera caught them away back there, with hats riding precariously atop elaborate coiffures, ears in plain view, skirts sweeping the ground.

Dr. Charles R. Hough of Belleville, chairman of the committee that arranged the reunion, read names and telegrams from former members scattered all the way from New York to Idaho and from Texas to Canada.

The attendance was not from so wide a radius, but two of the former members, Misses Thirza and Anna Powell, came from Oklahoma City, Ok.

Things Bought at the Bakery
Bakery are well patronized. Busy people who have little time to do their own baking find the ready cooked things acceptably made nowadays. It is a well-known fact that bakery bread and biscuits dry out faster than home-made; for that reason they must be very well cared for and purchased with extreme discretion.

Three members of the Junior Bible Class, as they were twenty-three years ago, and as they are today. Left to right—Mrs. Mabel Pope Steiner, Mrs. Ethel Bees Rauschkolb, Miss Jennie King.

Velvet Tea Gowns. Whether tea is tea or another beverage, tea gowns are tea gowns and nothing is more charming than one of the new velvet afternoon costumes when a woman receives her friends. The skirts of these frocks have an uneven hemline and are sleeveless, with a moderate boat-shaped neckline. The charm of the costume depends on the material rather than on its trimming.

Look Like a Lynx. Is not necessary to "watch like a lynx" to spot the fashionable furs for fall. All a fur has to do to be fashionable is to look like a lynx. This fur is a favored trimming, especially on the black satin coats which are designed to be worn when the first chill comes into the air. These coats are generously collared, cuffed and bordered with the skin.

The Indispensable Contrast. Contrast is one thing a costume seemingly must have. One designer has just thought of a new way to secure it. He has designed a series of light fall evening and afternoon coats with very wide sleeves. The under part of the sleeve is of the same material as the dress over which it is worn, while the upper part is of the material of the remainder of the coat.

LAUGHING AROUND THE WORLD with IRVIN'S COBB

"Get Your Bets Down, Gentlemen."
WHENEVER an Australian finds time hanging heavily on his hands he goes to a horse race. Everybody in the Antipodes stands ready to lay a wager on any proposition provided it has to do with speed. At a recent meet in Fremantle a prisoner escaped from a neighboring jail and was

winging his way to liberty through the brush back of the grand stand. A spectator caught sight of the contest between the guard and the liberty-loving runaway. Lifting his field glasses to his eyes he described the race to his companion: "The convict is running light and easy... he leads by half a furlong... the guard is gaining, picking up his speed... convict leads by half a furlong... guard running with head low... gaining, coming up rapidly... convict blowing... guard beside him... neck and neck... convict makes one last desperate effort... by the Lord Harry,

the guard passed him. I'll lay you five quid it can't be done again." (Copyright 1937.)

Fichus for Ingenues.
Nothing is so appropriate to the ingenue type as the fichu. On many of the fall afternoon frocks there is a fichu effect. Usually this is knotted in front, but one Parisian designer has reversed the arrangement and has a model gown on which the Fichu forms

a point in the front and is fastened in the back.

Protecting Your Schoolgirl Complexion
By VILMA BANKY
Use ONLY a true complexion soap on face
THERE are two rules in skin care which should be observed: (1) Keeping the skin clean and pores open. (2) Using a proved soap on your skin.

Present-day beauty culture calls for soap and water. But that means a PROVED COMPLEXION soap. Soaps made for general use are often too harsh for the skin.

Thus, largely on expert advice, millions use Palmolive Soap; touch their faces with no other. It is made of cosmetic oils. It is made for one purpose only—to protect and beautify the skin.

Wash the face gently with Palmolive. Massage its balmy olive

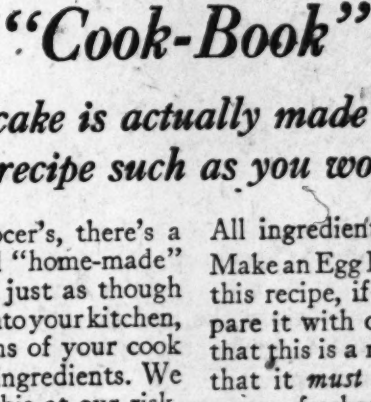

and palm oil lather into the skin. Rinse with warm water; then with cold. That is all—it's nature's rule for keeping that schoolgirl complexion.

Do that regularly, and particularly before bed. Never let powder, rouge or make-up remain on your skin over night. Note how much better your skin in even one week.

BY PROSECUTOR

Motion for Increased

CONVICTED OFFICIAL
ACCUSED SENATOR

Charges Watson Promised
to Use His Influence With
Supreme Court to Stay Its
Judgment.

By the Associated Press.
INDIANAPOLIS, Ind., Sept. 17.
Because of published letters in-
stating an alleged attempt to in-
fluence the Indiana Supreme Court,
Attorney-General Gilliom today
asked the court to increase the
sentence imposed on Dr. E. S.
Shumaker, superintendent of the
Indiana Anti-Saloon League, and
his attorneys.

The Attorney-General moved to
quash the judgment made against
Shumaker, which carried a
sentence of 60 days on the State
Farm and a fine of \$250.
Shumaker on the ground that the sen-
tence "now appears inadequate,
because of corrupt demands by
him, the said Shumaker, to cor-
ruptly influence a decision favor-
able to him in this cause."

Letters published today link the
names of Senators James E. Wat-
son and Arthur R. Robinson, and
Shumaker in an alleged attempt
to influence the court.

In support of this motion, said
Attorney-General Gilliom, "the
State of Indiana requests
that the court fix an early date for
hearing of the testimony of
Shumaker in open court in support
of this motion and that the clerk
of the court be ordered to issue
process for all witnesses whom
the State may designate."

Shumaker recently was sen-
tenced for contempt of court based
on statements carried in two
issues of the Indianapolis Times
of June 1, 1937, and June 2, 1937,
in which Shumaker was charged
with having written letters to
Senators Watson and Robinson
asking them to use their influ-
ence with the Supreme Court to
stay its judgment against him.

The exchange of letters followed
a telephone conversation between
Shumaker and Senator Watson
at Lake Maxinkusich, Ind., and
Shumaker was at Lake Maxin-
kusich at the time.

The next day, Aug. 6, 1937, Shu-
maker wrote Watson reminding
him that he had told him (Shu-
maker) that the Supreme Court
did not act on his case until
after the election of that year and
was only fine him.

Shumaker's letter, in reply to
Watson's, stated that such a con-
versation was held over the tele-
phone and that Dr. Shumaker mis-
understood him. Senator Watson
said, however, that Senator
Robinson came to him at Wash-
ington and asked him to do what he
could to prevent Dr. Shumaker
from being sent to jail.
